

GOD'S INTERVENTION IS NEVER TOO LATE ON THE PART OF THOSE WHO DESERVED IT: WONDERFUL BULLETIN TO HAVE A BALANCED VIEW OVER THE ALMIGHTY GOD/ALLAH AND HIS WAYS FOR ALL WHO WOULD BE FORTUNATE TO DO SO ON TIME: WHAT NIGERIA/THE ENTIRE WORLD NEED IS GOD'S INTERVENTION AND HE IS EVER READY TO INTERVENE NOW WITHOUT FURTHER DELAY, IN KEEPING WITH THE FOLLOWING SLOGAN, "HE SENT FORTH HIS WORD AND HEALED THEM:

VOICE OF THE FOUR REMNANTS OF CORNER STONE COMMUNITY BENIN CITY (IS INFALLIBLE).

This is regarded as summary of the write-up about the said vision of Corner Stone Community (also known as Catholic Charismatic Renewal) Benin City, Edo State of Nigeria, concerning unity. It is in line with the four different bulletins printed in September 2015 to mark twenty five years since the four brothers (remnants of the Cornerstone) were separated from any other group of people among them. These four among other bulletins for the same case have also being in circulation ever since that September 2015, just like some other ones before them.

SECTION ONE

This section one of the cases in this very bulletin is taken from catechism book of the Roman Catholic Church:

Question: Is the pope infallible?

Answer: Yes the pope is infallible. What do you mean when you say that the pope is infallible? Answer, when I say that the pope is infallible, I mean the pope cannot err when as a shepherd and teacher of all Christians he defines a doctrine concerning faith and morals to be held by the whole church. (on quote)

SECTION TWO

EXTENTION OF THIS POINT IN SECTION ONE TO INCLUDE ALL WHO DESERVED GOD'S PROMISED COMING KINGDOM AMONG MEN:

VOICE OF THESE FOUR REMNANTS IS INFALLIBLE:

FORMALLY DECLARED FROM ABOVE (AS SO) ON THE 27TH JULY 2017. TO BE PROVED IN DUE COURSE AS SO TO ALL WHO SHOULD KNOW.

When I say that he (voice of the four remnants) is infallible, I mean he cannot err when as a trained and prepared person by God for all who would join the four brothers to produce abiding fruit of the Holy Spirit (henceforth) he defines a doctrine concerning faith and morals to be held by all who deserved paradise/preparing kingdom by the Lord Jesus Christ.

And this is a hopeful promise by Almighty God/Allah to children of Abraham who basically believed in two different religions that use the Bible/Quran respectively as their guide. But through a special training which He (Almighty God) has destined to take place in a time like this when almost everyone under the sun is corrupt against this promises, He will now prove (or rather renew) the calibre of people to be allowed into it, the way everyone involved (who is still physically alive) would see it very clear.

The people to be used for the renewal, would be chosen from both the said two different religions and the same caliber of people outside them. They would first of all gain freedom from bondage of satan and sin as to enable them produce the said fruit in the midst of others so that in the end they would stand and bear witness against any other person who could not change here on Earth, as to join them, but hoped that the name of such a one's religion or anything else would qualify him or her to be accepted by God/Allah as faithful and truth worthy.

EITHER OF THESE TWO DIFFERENT RELIGIONS HAD WANTED TO ESTABLISH MONOTHEISM UNDER THE SUN IN DIFFERENT WAYS BUT NOW THE SPIRITUAL SIDE OF THE CASE IS OVER LOOKED BY ALMOST ALL RESULTING TO GENERAL CORRUPTION AND GENERAL FAILURE

TO START WITH

Abraham, Moses, Elijah, David, etc had fought against flesh and blood in one way or the other which mostly had to do with promised land or in defense of such land. Prophet Mohammed did the same to establish physical side of the said monotheism under the sun, all for God's own different purposes. But before his own service among men, someone had come in a person of the Lord Jesus Christ who had established the said monotheism both physically and spiritually. All these were ordered by the same Almighty God/Allah who promised the said land and also promised the said paradise/preparing kingdom where anything like fighting or separation like enemies as to fight would not be a case. Instead, it is for those who are used to practicing of both physical and spiritual side of monotheism which in this very sense means that all glory should go to Almighty God/Allah without division or sharing to some other gods. And it is only in the full light of the gospel bitter truth, the case becomes very clear that it includes human freedom from service to the spirits behind immorality, greediness, anger, lying, enmity with fellow human being, etc both physical and spiritually.

The most important virtue in a man who fights this very battle both physical and spiritual (as a trust worthy servant) could enable him to compose disarming frankness in the face of provocation to puncture anger. And in such a case where by the physical assailant is so angry as to go ahead with undesirable treatment, the victim remains trustworthy to Almighty God/Allah who introduced a life style of a sheep in the midst of wolves through the Lord Jesus Christ for all who deserved the coming kingdom.

SPIRITUAL MINDEDNESS IN THE MIDST OF PEOPLE WHO HAVE FAITH IN GOD/ALLAH BUT COULD NOT SEE SPIRITUAL SIDE OF HIS PROMISES OR SPIRITUAL SIDE OF WHAT HE DOES AMONG MEN FOR THINGS TO COME.

Before this life style of a sheep in the midst of wolves which requires spiritual mindedness was established for the coming kingdom, some people had achieved the coming kingdom through their faith and obedience onto God. People like Abraham, Moses, Elijah, David etc. Some of them were spiritual minded prophets who did not move after material things or expected God to reward them for their service with material things. While others were not (spiritual minded) instead some of them were rich about materials things and they had enemies among their fellow human being as to fight against flesh and blood for God's own purpose. And most interpreters of the word of God for the coming kingdom who could not see the spiritual side of the case could quote from cases of anybody who had served Him (the Almighty God) in the past as to imitate them in everything they did at the present time.

Again, life style of King Solomon is another side of this very case in question. Below are some of the things about him in relation to it which people should know in a time like this.

No. 1: God simply loved Solomon with an external love only and pampered him more than anyone else who could serve Him for an important purpose as to receive the reward here on earth.

No. 2: Solomon was not a spiritual minded man and he neither lived by faith nor remains in obedience to Almighty God. He was only gifted with wisdom of this present life, which he used both to govern the people very well here on Earth and also to gather wealth for material achievements, including building of the physical temple for God. He gave the flesh what it desires and enjoys in superlative degree or in such a way that any other servant of God on Earth who would be rewarded with what human nature want against hidden treasure in the land would only have proportional blessing of King Solomon. This is whether the person is a man or woman, king or not king, religious or not religious so far he or she is blessed by God here on Earth.

And that was opposite to kingship of the Lord Jesus Christ as a spiritual minded man who lived by faith and obedience to Almighty God for something to come which man could neither see with the physical eyes nor join on the striving track leading to it with the physical eyes. His own blessing is in superlative degree and both those who are going to be kings with Him in the coming kingdom and all who would serve here on Earth as to enter into it, will have proportion of that. These are people who would be able to take the same type of baptism with Him or drink the same type of cup with Him to enter into the kingdom, (which He asked James and John if they could do). Meaning: Acceptance of unpleasant and undesirable side of the gospel teachings to ensure that such errors on the spiritual side which could only appear as error in the full light of the gospel bitter truth must be avoided on the process.

High priest, teachers of the law, etc did serve Him (the Almighty God) or had been serving Him before this life style of a sheep in the midst of wolves was introduced and established. They neither received persecution from their fellow worshippers (of the same God with them) nor from the community they lived. Instead they received respect and obedience both from the fellow worshippers and from the community they lived and also received the same from one another among themselves according to their own established religious hierarchy.

In the other hand, the Pope (or the supreme pontiff) and other priests under him have being in the same shoe, despite the fact that the said life style of a sheep in the midst of wolves had already been established before re-establishment of the same system. But it was for a different purpose and part of the reason had been explained in some other areas before now, particularly in one of the said four different bulletins printed in September, 2015, titled: "Do your best to accept this destined great failure with remarkable equanimity as a gospel leader in a high or low level to enable you make a positive use of the second chance associated with this later rain (destined to be greater than the former), dated 09/09/2015. (on quote).

The same class of interpreters of the word of God in question, could not see spiritual side of the Holy Trinity, (God the father, the Son and The Holy Spirit) so they do misquote the case in two different ways. The Lord Jesus Christ (Mighty God) is neither the creator nor a created person, but word of the Almighty God through whom all things were created. He is between the creator and created. Therefore any respect to Him is a respect to the word of the Almighty God and obedience to Him is obedience to the word of Almighty God, while all the glory therein go to Him (the father/the Almighty God who sent Him).

He never claimed to be equal with the father (Almighty God) as some of these people do interpret to cause confusion among men.

Below are some instances:

Jesus neither claimed to be omniscience like the Almighty God, nor claimed to have prerogative in common with Him. He said to James and John and I quote, "It is not my prerogative to choose those who would be by my left and right in the coming kingdom but my father's. He also said to the apostles and I quote neither I nor the angels in heaven know when the world would come to an end, only my father knows. Again He never claimed that He could swap positions with the father, or that He could serve under the father and vice versa, the father could serve under Him. Therefore those who interpret (any portion of) the Bible to mean that the Almighty God Himself had come down and entered into the womb of a woman in order to salvage mankind from sin, or describing the Lord Jesus Christ as equal to Him could not see spiritual side of the case. If not He (the Almighty God) have never be under any creature (man or spirit) or served under any creature in any way any time, because it is totally against His own nature as the Almighty God.

In the other hand, the same group of interpreters in question do think that Holy Trinity has to do with polytheism or worship of more than one God, just as it sounds to the ear (God the father, the son and the Holy Spirit). This is caused by the same inability to see the spiritual side of the case, and the people involved do undermine the lordship of Jesus Christ directly or indirectly, in their effort to give all the glory to Almighty God. But to those of us who (by His grace) could see the spiritual side of the whole case in the full light of the gospel bitter truth, we know that all power in heaven, on Earth and in the world below is given to mankind through Him, the Lord Jesus Christ who died on the cross for salvation of human soul from bondage of satan and sin. And we also know that anybody who could not see it as so or accept it as so will never practice monotheism or avoid sharing the glory of the Almighty God/Allah to some other spirits both physically and spiritually. The case included those who claimed to believe in the trinity but deviated from the system of life through which one could hold this authority and use it against every contrary spirit. These are part of what people will now see very clear as soon as the light shines for amendment on time on the part of those who look for the Almighty God/Allah the way they could find Him, or be able to identify the Lord Jesus Christ by His personal voice.

Their positions as father and son, mighty God and Almighty God are perfect, unlike those of Adam and Eve who are not perfect and have been swapped in so many places for a different interest. The reason had been explained in some other areas. While the said perfect love and obedience that go with positive side of the case, on the part of humanity, would be reintroduced when the expected light shines for the sake of the said united chosen ones from the two different religions and outside them, in order to renew required quality for something to come.

EYE OPENING COMPARISONS/ILLUSTRATIONS ABOUT WHERE MAN AND WOMAN COULD BE REGARDED AS THE SAME AND WHERE IT WOULD NEVER WORK.

As we all know, a shape of pit toilet does not give equal favourable service to man, woman and a child. In the sense that if the builder makes the hole as big as to contain waste matters from the body of a woman (both waste water through the front door and waste food through the back door) there would be danger or fear that a child using it could fall into it. And if he makes the hole so small as to avoid a child falling into the pit, it would be difficult for things from both front and back doors of a woman to enter there at ago. As for a man if the hole is big enough to favour a woman, himself would equal find it favourable, and if it is so small as to avoid life of a child being put in danger, he would not find using it difficult, since he could use the hand to control the genital organ into it, then to mess up the top would be avoided.

The major point here is this:

Unlike the modern W.C. that serves man, woman and a child equally favourable about excrements of the body; shape of pit toilet does not treat them equally favourable (so long as easiness, difficulty and fear of any danger are concerned).

In the same way, the spirit behind sophism or political wisdom could mix up thinking power and reasoning abilities of man and woman and make them appear to be the same before some ignorant men, the one behind carefulness in human life never do so. I mean when the spirit himself is at work and the people concerned are afraid of his instant prove of errors in their lives based on the very system they have agreed with him to maintain. As the case was under the Law of Moses, in the tradition of Igbos in Nigeria and in some other traditions (for a given time). This is before talking of the very shape the case takes on the gospel striving track where holiness and perfection were added to carefulness in life.

Again, a baby does not by-pass its own mother to have a share from what its father had already consumed into his own stomach; this is whether the baby is still in the womb or being carried in the palm of hands.

In the same way, a woman does not by-pass man to have a share of carefulness in life from any spirit behind it; whether the spirit cares for holiness and perfection or not. So far there is a way to prove when errors are there on the spiritual side of cases involved. And those who could not see these things very clear this time would be convinced about them when the coming light shines.

INCLUSION OF CHANGES ABOUT QUALITY OF MESSAGE

Human shoulders were made to open the birth canal to the extremely wide and when they have passed it, shrinks back. Then if anything else which is not equal to them comes to it, it appears as if it has already opened as much as it could, until when they come again to prove the difference. And when they are concerned, smiling, laughing, joking etc are not expected through anybody involved, instead groaning weeping or even a loud shout may be heard.

Wisdom of the wise and understanding of the learned have mixed up men and woman to interpret word of God (in a corrupt society). And this had appeared as if it has to do with carefulness, holiness and perfection, cases people will now see as they are on the gospel striving track. This has turned almost the whole church to money making business, more so on the part of those who have what it takes to perform some external miracles, thereby moving people to struggle for recognition and position of influence in the church in order to have materially possessions and achievements. People gather and dance in the modern church with hope it is part of the way to prove being salvaged from bondage of satan and sin or to prove their love for God and faithfulness onto Him, since they never know that there is a way that seemed right onto men but the end thereof is not so.

King David did dance for God in his own time (some modern preachers would quote), but when and where? Did David dance for God inside physical battle field? Or did he strive for holiness and perfection in his own time? Was it not in the absence of the physical war around him that he brought down his instrument for dance? Then when did God permit the Lord Jesus Christ or any of His diligent followers to imitate David about dance? The answer is clear, there was no time such a thing happened. Since the spiritual battle on the gospel striving track has no stagnation and errors about immorality goes beyond physical.

Below are contents of a paper which you might have read about this very programme, bearing the same date with this bulletin; 30th of September, 2017.

VOICE OF THE FOUR REMNANTS IS INFALLIBLE

Official announcement of over throw which has taken place on the spiritual side. The authority of man over all creatures including satan, woman and children is restored for heaven sake. This has to do with restoration of the spiritual sight/wisdom and power with which to overcome the world for the preparing kingdom by the Lord Jesus Christ. Therefore henceforth when a man who knows his onions on the gospel striving track has taken undesirable and unpleasant decision (in the face of a trial), a woman involved would either join him willingly with the understanding of whom he is to her and whom she is to him or be compelled to do so, as to laugh with him about the result. Instead of been compelled to join her in any decision in the face of a trial to the detriment of the spiritual side for any reason only to regret with her about the result. Thus said the Lord (on quote).

The main mouth with which to speak is on the head and inside it there is tongue with which words are being expressed. The one by the under (anus) speaks as well, but it has no tongue with which to express the words and that is why it positively hides the ability to speak (since it is under). Although it equally performs important duty for the whole body its own system always includes more careful to avoid embarrassment or any sign of not been properly controlled.

All these comparison/illustrations are mostly pointing to some qualities/positions about man and woman (repeated) which people will now see that mixing them up or any change about them cannot work on the gospel striving track. The cause of both this mixture and changes about quality of the gospel message had been the power failure in the church or inability to see spiritual side of these cases. And just as involvement of shoulders in the stated case never go with laughter, interpretation of word of God for the striving track opens the people's spiritual eyes to be extremely wide, which never serve for game play when they could see that they are standing on a dangerous ground. So it is in the absence of this very light that quality of message drops, then people could gather and dance in the church with hope that all is well, but God's time is the best.

NIGERIA

Then here in Nigeria where the said unity is destined to start, it is a known fact that the Igbos and Hausas (two among major tribes in Nigeria) have some element of distrust or disunity among them, which is more open to see than some other ones in the country. And that could be said to have started or increased in 1966, after the first military coup in Nigeria. In the area of religion, it is also a known fact that the Igbos accepted Christianity with little or no regard to the Islamic teachings (and vice versa) the Hausas accepted the Islamic teachings with little or no regard to the teachings about Christianity. This is in such a way that any other tribe or group of people in Nigeria that accepted either of these two different religion is only following either of them (Igbos/Hausa respectively) at back about their own side of it. And my attitude to any Nigerian who sees these things differently is, "I thought it was very clear".

These two different tribes/religions in Nigeria represent the said two different children of Abraham who use the Bible/Quran respectively as their guide for a system of worship, ordered by one God/Allah for different purposes before this time. And there are ways a balanced view is gained from either side or either system for all who would practice the said monotheism in full. This is as to become truth worthy to Him, the Almighty God/Allah who permitted everything that took place on the process for people to see and also test them before this unity of the chosen ones from all sides.

No. 1, of these ways is ordered separation of the said four brothers from any other group of men, including worshippers of God/Allah with the Bible, Quran, etc as their guide. This was to enable them live such undesirable life style without already known recorded system of worship, in the midst of others, through which they were made to see who is who among men in relation to the said required quality for the paradise/preparing kingdom.

No.2, is ordered process by the same God/Allah for the same purpose, which one of recognized men in Nigeria went through who was neither an Igbo man, nor an Hausa man but (he) was simply made to start from one of these two different religions before he joined the other and was able to compare them for the same purpose (quality for the paradise/preparing kingdom). Identification name of the man is Prince Bello Afegbua from Okpella village in Edo State of Nigeria. He retired in 1982 having rose to the rank of Assistant Commissioner of Police. He was born in 1931 and changed religion in the year 2000, before he died in 2011.

(CULLED FROM VANGUARD NEWSPAPER DECEMBER 17, 2011, PAGE 15. I LOST A GREAT UNCLE).

Everything important about this case in question is contained in it, including failure through corruption, which has taken over in all sides among men. He was a man who loved unity, peace and tolerance. He could recognize them by their degrees, as to see which of them could stand test of time. He had seen proportion of them through the former religion before he saw them in superlative degree in the light of the gospel bitter truth and related the case to the said required quality. He was also a man derived by

personal conviction about everything in which he was involved in life. Therefore he was chosen by God/Allah to point out the said shining light which could expose every corrupt practices in which anybody who worship the Almighty God/Allah with hope of paradise/preparing kingdom is involved for proper amendment on time. His view over the whole case was in line with those of the said four brothers about what they see in the full light of the gospel bitter truth, concerning corruption/general failure and the requirement for the coming kingdom. Then with these views from both sides of the two different religions involving worshippers who hope to be accepted in the end by Almighty God/Allah into His kingdom as faithful and trustworthy, the chain of division and lack of trust among us is cut on the spiritual side of the case. Himself (the Almighty God/Allah) knows who and who among His loving children from all sides of the people He will now use to prove and establish it physically.

A POINT CONSIDERED IMPORTANT TO BE REPEATED HERE

This shining light of the gospel bitter truth had been established in the first century between two sects of people. These were those who worshipped God in a way involving some cases that would not stand test in it (that time) and those who were yet to do the same from that time till this 21st century when the same light would come up again in full measure for a second time. These were ordered for different reasons/purposes and some of them before establishment of it (or at that very time) were;

No. 1: those who fought against flesh and blood to gain Promised Land or to remain in the land.

No. 2: those who were blessed with wisdom of this present life for governance of the people which did go with material wealth for physical achievement.

No. 3: those who occupied desirable and dignifying religious offices among the people, etc.

Then after the first century some of them have been;

No. 1: fighting against flesh and blood which has to do with establishment of physical side of the said monotheism in the midst of those who worship some physical idols or those the fighters perceived as worshippers of other gods.

No. 2: those who occupy the same desirable and dignifying religious offices for some reasons already explained.

No. 3: religious leaders who display material wealth, or encourage the fellow-worshippers/listeners to pursue material things or physical blessings of God against hidden treasure in the land.

No. 4: those who call down fire from above against their physical opponents, just as Elijah did before the light was established, etc.

WHAT HUMAN NATURE WANT ALWAYS HAVE ITS OWN ROOM AMONG MEN

NOTE: Life style of a sheep in the midst of wolves which the Lord Jesus Christ stands for is not promoted at the same time physical weapons of war served in place of the spiritual ones. It is not promoted where people involved could use sophism, anger, violence, etc to prove themselves wise or powerful and this is whether the case involved the name of the Almighty God/Allah or not. It is not promoted when blessings of King Solomon are lifted up against hidden treasure in the land. And these have to do with pleasant communication between male and female persons, when what it takes to maintain it is around (legally or illegally achieved). Exercise of authority over fellow human beings at any level outside a man's personal family particularly when such a one is allowed to do so like the Supreme Being, etc. While being desperate about any of these things deprives a man the suitable position and quality to see who is who among men, as to handle their cases positively for abiding fruit of the Holy Spirit. And now all concerned will be made to have a balanced view over both sides of each case in which they are involved. This would either be for a change to better (on time) in case of those who deserved it or before be allowed to continue, in case of those who are already playing a destined role in the office here on Earth, for the Almighty God/Allah. But no matter the level of faith applied anybody involved in any of these vices that contributed to the general corruption, would never be allowed into the said paradise/preparing kingdom, where disciplined lovers of genuine peace and tolerance would have them in full without hindrance. While the practice must undergo a test here on Earth and achieve a pass mark before extension as to gain the entrance.

Read the following headline and its contents to get this very point clearer:

TO AVOID LATER REGRET; THAT LIGHT ESTABLISHED IN THE FIRST CENTURY IS FOR YOU AND I AND ALL OF US SO FAR YOU ARE A CREATED HUMAN BEING:

ILLUSTRATION

A BANKING PROCESS/SYSTEM IS CHANGED AND AS A CUSTOMER TO UNDER RATE THE CASE IS TO REGRET THE RESULT.

Assuming that customers of Central Bank of Nigeria had a particular way they were treated before a sharp change of hand took place about that. In the former system a lot of time was spent counting each customer's money using the computer. And before counting of it, the customer would first of all be asked to mention the amount involved which must be written down. In the process of counting, if the amount was not accurate, amendment would be permitted. In case of incomplete amount, completion would be made and if it was over the astounding amount would be given back. After that, the money would also be tested in the mercury light to ensure that no counterfeit

was inclusive. Then at a time decision was taken against the system because customers had increased in number and service became burdensome and stressful to some bank attendants.

In the later system, each state of the country was given a sect of computer and the mercury light so that the same amount of time needed would be spent in counting each customer's money and to test them in the mercury light there in the state. So that when the customer comes to the Central Bank with the already counted and tested money, the question would be how much is there? The amount would be mentioned and that would be written down. After that the only duty of the attendant in the office would be to confirm the said amount with the computer and also confirm genuineness of the money in the mercury light. Then if for any reason the amount is not accurate (either more or less than) or that any counterfeit is inclusive, it means a permanent failure against the customer. A second chance would not be given, since a given time for any of such amendments is over. Instead, what would follow is declaration of anybody concerned a fraudulent, deceitful and untrustworthy customer forever. These would be labeled and stuck, both on the forehead and at the back of such a one. So that henceforth anybody looking for a customer who is neither fraudulent nor deceitful but trustworthy would never be involved in such a one's case (as long as money and banking are concerned).

Likewise the Almighty God/Allah had already confirmed some people's trustworthiness in the past through different ways, as to allow them join those who had achieved the same before them, waiting for those who are yet to join them. What had been considered important in each of these ways were faithfulness and obedience unto Him anyhow He asked for it. But since the establishment of the said light in the first century the case about quality to achieve trustworthiness to Him is specific. It means that a person or some persons who could see both physical and spiritual sides of all the ways each contrary spirit takes the glory belonging to Him (the Almighty God/Allah) like the Lord Jesus Christ Himself must look into each one's case here on Earth. Because both the light and wide open eyes being used are made to serve in superlative degrees (fullest and widest) just the same quality that would be used on the last day (or the day of judgment).

In case of when the light is generally taken off and those who believed in the name of Jesus could not see both physically and spiritually sides of each case involved, they still live like sheep in the midst of wolves. This is a prove that the spirit at work for that purpose could see both sides of each case and each case could pass test in the same light because He (Jesus Christ) has all it takes to do so convincingly to each person involved when there is time to amend. And each person must be convinced the same way such a one would be convinced when there would be no chance for any amendment. This conviction itself also goes with some element of fear, or a proportion of that terrible one to come on the judgment day, so far the light is in full as it had been in the first century.

Therefore if you think that you are already salvaged good for you, but never fail to confirm it in the light since you are fortunate to have it revived in your own time as a servant of the Almighty God/Allah. This is because deviation from life style of a sheep in the midst of wolves which the light serves to prove on time could still go with strong faith in Him. But anyone who waits till the end to have his or her own stand tested in the same light would surely be disappointed by such faith.

The said four brothers chosen this time (in our time) remain faithful onto Him (God) and obey Him anyhow He says even when none of the things those who work by sight do regard as blessings from Him is involved. He neither takes side with them in their cases with their physical opponents the way such people think nor the way they could understand. Still He keeps them friendly with Himself despite all they go through in the midst of others since the said past time (evidence of the spiritual mindedness in question). What is important now is examination of this very process since that September 1990 when they were separated from others to this September 2017. This will take place on both sides (the four and any other person outside them) particularly those who happened to come close with any of them anywhere. Including members of Saint Augustine Parish Prayer Warrior Group (1986 – 1990), members of evangelical group of the same parish, marketing neighbours to any of them, family members, yard members etc. Because for the time being everyone from either sides stands like a single one in a bunch of such money to be tested in the said mercury light here in our own state.

The first one to question the opponent (on the process of the examination) could ask “what have I said or done since that time (of separation) which you are convinced that (it) would not stand test in this very light and could result to later regret if it is not properly treated on time? After that the questioner is entitled to point out what he or she had also gathered on the part of the opponent whom such a one had questioned about oneself. If either of them is sincere about how the errors involved concerned such a one, the Lord Himself is ever ready to see him or her through convincingly to prove that He is the one at work for our own good. And this case will now renew the fact that sometimes failure of a servant of God before men could not be failure before Him. In the other hand, failure of some worshippers of God on the spiritual side may not appear as failure before men (in the absence of this very light) just as it was in the case of the Lord Jesus Christ and His physical opponents. These are two different cases concerning the former rain which took place in the first century and the latter rain made to be greater than the former destined to take place in this 21st century.

Now that the light which had been taken off for some time is restored in full, it would be very clear once again that service for the coming kingdom must include lifestyle of a sheep in the midst of wolves whereby no human being would be regarded as enemy or be treated as so. Instead with the said all power in heaven, on Earth and in the world below, man stands to prove that every contrary spirit that fights against abiding fruit of the Holy Spirit is subject to him and all who deserved to share from his effort before God. All he needs to do is acceptance of cup from his fellow brother or sister being used by any of them and stand to have the person treated as a dear one with

the understanding that his words and actions on the process must be as to prove so in the light. For this reason this group He will choose from all sides will now stand to prove that they could see something else in place of prepossessing appearance which human beings highly valued naturally; physical blessings that go in line with it; including position of influence that serves in line with them. They would stand to handle cases of those who could not see these things as they do (at the moment) with care and continue presenting points therein with friendly voice. Hoping that those of them who equally deserved it would be made to see them as they do at any moment so far they are still physically alive. Care must also be taken to ensure that those of them who have already got some of this physical blessings using them to serve God and humanity would not be in a hurry to drop them. This is until they clearly see that God has made it possible for anyone involved to join them spiritually or making diligent move to join them, to avoid a case whereby salt would lost its saltiness and become good for nothing (physical ones left, spiritual ones not achieved). Meaning that a builder of a house did not calculate very well what it would take before making a start there by ended up somewhere half way.

As for the Lord Jesus Christ Himself He knew what He suffered as a man in obedience to He who sent Him for salvation of mankind from bondage of satan and sin and will never accept lesser quality of obedience about that from anyone for any reason as long as the preparing kingdom is concerned. It is true that those who move with Him as to produce abiding fruit of the Holy Spirit are physically known for prima facie worthlessness and also be treated as so in some areas. But apart from those who could see both sides of cases steady as they do, whenever this light is on almost every-one around see the value of their effort. Or see it when they have some spiritual problems and needed their service for the moment. So what would now follow on the part of those to be used for a start is restitution and reconciliation with every one among their relatives. This would go in line with the said exchange of questions from both sides of the former separated people made for a balanced view about the past process.

THESE RESTITUTION AND RECONCILIATION ABOUT THE PAST ARE FOUNDATION ON THE ROCK FOR ABIDING FRUIT OF THE HOLY SPIRIT. THEY GO WITH SUCH DISARMING FRANKNESS THAT DENIES THE SPIRIT BEHIND CORRUPTION A HIDING PLACE IN THE HEART OF MANKIND.

The main point when these had taken place both physically and spiritually is that henceforth both everybody in one's life and everybody around anywhere such a one may be among men would be regarded as dear one and could be addressed as so by him or her without hindrance. This is with the understanding that the person in turn could see one's reaction to him or her in some cases and ask question in relation to the accepted fate as to know whether or not those things could stand test in this very light. Or to know whether it is the proper way a dear one would be treated in such cases with fear of failure before God in the said coming kingdom where everyone around must be regarded as so and be treated as so forever. And sometimes who is

right between such questioner and the questioned may not be clear until the cases involved are tested in the light by those who could see clearer and understand better.

INSTANCES TO HELP

When any government in power want to gain a balanced view as to see their own short coming in the country, they need views from opposing parties and should not rely only on the voices of current office holders, beneficiaries of their own service, or some praise singers who could only mislead them against truth of the matter.

One who desires genuine repentance on time, does not rely on voices of such a one's praise singers but those who speak against or act against him or her among those the person knows. Another instance:

I have a mother who loves me as her own son and I love her as my own mother, and since we don't have misunderstanding between two of us, it is natural for me to think that she is good and loving to everybody (and vice versa) she is likely to think about me in the same way. But that does not mean that this goodness is already tested and confirmed in the light of the gospel bitter truth in preparation for the coming kingdom, since neither I nor herself is the final judge. And based on the system approved by Him (the final judge) if I stand to claim that she is already good simply because she is good to me, I stand to be a liar if someone else could stand and prove her otherwise. Likewise if she concludes my side based on my goodness to her she stands to be a liar when someone else proves my case otherwise, and all liars deserved hell. So it is in this light we all will now clearly see that those who suffer unpleasant side of a person's inward and outward qualities in life, are those who could gather important remarks to prove it when the truth must stand as so. In other words, as you gather some pleasant remarks for entrance of your dear one into the kingdom of God simply because he or she is good to you. Some other persons both human beings and spirits behind them do gather some important remarks to prove your conclusion otherwise. And these are vice versa about those who think you are so good to them that such goodness would be accepted for the kingdom of God without any other test. Either side of these must be tested in this light, if not here on Earth when one side could help the other for proper amendment and precaution it must be done later for inevitable regret when no one would help the other to change anything about it.

In the modern system, most of the people in the church cannot tell the difference between washing of feet among those who have already had both and a case where dog goes back to its vomit. All they know is God could forgive when a person has done something wrong, but all would be clear in this light. Such people would realize that there are offences God forgives only once and for all, after that the person would be trained to avoid everything that could lead to it for a second time with fear. And if any of such things is mentioned among those who claimed to have repented of their past sins, questions would be when did it happen? Was it before the repentance or after it? If it was before why that was not settled by the time given for restitution and reconciliation? Then if it was after or if the case involves what some ignorant regarded

as repentance it is only such ignorant that would not see what is there, or the very side the person concerned belonged. Because God Himself is always there when it happen; and if He had joined such a one to those He disciplines for the coming kingdom as soon as the person tampered with what could lead to sin which such a one had repented of, He would instantly chastise him or her. And when He does the person could suffer more pain about it at that very stage than a careless person who fell into the main sin with hope God is there to forgive him or her.

Some cases already on ground may appear too difficult to settle in order to accept everybody as dear person to oneself for heaven sake, but the proper solution to settle each of them once and for all would appear in this light, so far genuine repentance is involved.

It is in it (this light) the meaning of water baptism would appear or stand once again as provided physical sign of spiritual amendment about past errors in preparation to face the future with caution. And the Holy Spirit baptism would stand as a prove or confirmation that every contrary spirit that joins to fight against gospel striving specification is subjected under any man who has already received all power in heaven on earth and in the world below against them. Then any person or a group of persons who see these things differently or embark on any activities about them differently would now see clearly that they have been operating under the influence of wrong assumption.

It is good for a man to love woman and look after her. It is also good for woman to respect man and obey him. But activities of these contrary spirits in a corrupt society, against these cases on the ground, would not remain hidden on the part of those who care to know. It is good for parents to love their children and look after them; but how do they train them and how do they achieve what they used for training are equally good and important to stand clear. So the whole system would be looked into this time to ensure that no contrary spirit is involved leading either of the parents or any of the children to a regrettable end about service given or received made for goodness of mankind. It is good for man and woman or boy and girl to spend time together for some important interest, which could be as close relatives or according to their own accepted system in the society. But which spirit is taking the glory in any of such togetherness would not remain unknown to these people who would be made to see both physical and spiritual sides of any case in which they are involved to avoid later regret. Again it is good for two different grade of persons to spend time together, man and woman; adult and a child; leader and follower; mentor and mentee, a man who could see both sides of cases and his fellow man who could not see them, etc but what goes on in such cases would not remain hidden to those who should know. Because to those who could see them if man did not prepare as to move forward with woman (in their own case) the woman could lead or influence him for their own backwardness and the same goes on in each of these cases involved.

In other words, a man who knows his onions on the gospel striving track will now prove it in his togetherness with any woman in his life or around him, since the result is not

hidden when the light is there in the midst of the people. His duty particularly as a leader at any level in the gospel field, as a head of a family or as a mentor to some other people about the same case, is to ensure that no contrary spirit would operate with his own support or approval to the detriment of abiding fruit of the Holy Spirit (since he could see them). And his togetherness with any woman will now mean to say, “welcome you woman for I am equal to what our togetherness should be for our own good and that of everyone else whom it concerns before God. He would also learn to say, “goodbye woman to avoid over staying your welcome to the detriment of abiding fruit of the Holy Spirit”.

In the other hand, when a woman holds what is important the way it is important that nobody would take it away from her, or making a diligent move to hold it before God, as a willing listener or a helper to such a man, she will now know whom to trust among men without detriment to the spiritual side of the case. She marks any of such men around her the same way a developing new born baby marks its breast feeding mother. She also differentiates his own love for her in the midst of other people the same way such a baby does about its mothers love in the midst of other relatives who could equally carry it on their bodies and play some games with it in the name of love, but would not serve about needed breast feeding for growth. And for sure these are by the centre of our struggle to free ourselves from any careless activity that contributes leading most of the people who appear good and innocent before men to a regrettable end.

It is all these amendments and preparation that will now serve as spiritual equipment to force this spirit behind corruption to shift ground against his former stand, and this will start here in Nigeria. Because the shining light through these people would reflect in all corner where they would be scattered (or rather where they would spring up from) and these genuine love and tolerance with their physical opponents would be radiating around even though they would not be very many in number at first. And the battle will now be between physical agents of this stubborn spirit and their physical relatives who keep encouraging them with some misleading praises and thanksgiving when neither the singers nor recipients of such praises could see spiritual side of the whole case.

The first sect to see it among such singers would stop it with fear and the first sect to see it among the recipients would remove their hands from each of the corrupt practices in which they had been involved. There would be fast increment in number about these from both sides, followed by instant change among the people in the country, called revival, which we have been waiting for in keeping with the slogan on the headline, “He sent forth His word and healed them.
