

KEY POINTS ABOUT THIS END TIME MESSAGE THAT CONCERNS HUMANITY AND CREATOR OF ALL THINGS.

Certain things were turned upside down, from the usual ways they were known in the past among those who worship the creator of the universe.

Some of them are No.1, the way He took side with those He regarded as his special people or the chosen ones among others in their cases with some other people as to protect and defend them in times of need.

No.2, the victory he gave them in their battle with their physical opponents, which is understandable to most of the people.

No.3, the blessings that went with these things in the midst of other people which were physically or materially, etc. and these were before a change from physical to the spiritual side.

This change has started when John the Baptist preached His own message about the coming kingdom and will continue to be so till the last day, or the judgement day and it requires such opened eyes John the Baptist and the Lord Jesus Christ had gained in the desert, to see both side of the cases involved.

This is because such opened eyes work with shining light to enable the people see them very clear the way everybody will see them on the judgement day.

But for the time being, this light shines and goes off, just like torch light. It is not yet shining steadily the way it will shine in the coming kingdom.

So the most astonishing part of it now is that some people are lifted up among those who gather for worship.

This is against the spiritual side of the new system, but it is done by the creator Himself. He allows them to occupy positions of leadership and teaching as if they had already understood this new trend about upside down issue, or a change from physical side of favour to His chosen people to spiritual side of it.

And it is only when these eyes are opened and the light is on, it appears very clear that the people in question are not holding what is important the way it is important that no one will take it away from them.

It also appears very clear that social status of the few who hold the stated point properly attracts prejudice, negative criticism, despisement etc. against them among men. As a result, whenever this light is off, most of the people who could not see what is there on their own cannot accept them at their own valuation in the society.

Therefore, they are not expected to represent religious leaders or teachers in their cases with traditional rulers, secular government officials and other prominent men and women from different field of human endeavor.

Because naturally those who are lifted up in these started areas including religious leaders, work hand in hand to secure human respect for themselves and for one another against this system. And they also work hand in hand against any of such strange lifestyle when it comes against their common interest among the people.

In such a case religious leaders and teachers do join their calibre of men directly or indirectly, openly or hidden. Just as it happened among members of the corner stone community Benin- City, Edo State of Nigeria by order of the creator Himself for careful experiment over the case.

And the aim of such leaders was to have everybody stick with the herd about community lifestyle or some religious issues accepted by most of the people even when they are to the detriment of the Gospel striving specifications.

Why? Because such leaders and majority of the people in the society understood those usual system of life better than the strong message in question.

FIRST CENTURY AND TWENTIETH CENTURY EXPOSITIONS OF THE SAME ERROR INVOLVING BIBLE BELIEVERS BEFORE INCLUSION OF ISLAM AND OTHER RELIGIOUS BODIES AMONG CHILDREN OF ADAM AND EVE.

By now this very exposition of error has taken place among those who believed in the Bible in two different occasions (as stated above). And these are one side of the children of Abraham who preach about the creation of the universe and His coming kingdom.

While the other side of the same children of Abraham who believed in the Quran and also preached about the creator of the universe and His coming kingdom are included in this latter one, because their own system of worship had not started yet in the first century when the first exposition took place.

This is before talking of other children of Adam and Eve who engaged in various system of worship before now. Since the creator Himself knows everybody from any group of worshippers among men who preach Him and the coming kingdom with sincerity of heart and they will now use this sincerity to attract His help before Himself will clearly prove to the world that they are people who deserved the coming kingdom in question.

He has reason both for this upliftment of leaders in the latter accepted system of worship and exposition of the error therein (repeated). And this has much to do with his special arrangement for thoroughly shaking and selection of these few who are still hidden as long as human point of view is concerned.

Therefore even if some of these outward remarks to differentiate these few from the majority as of now, change on the process, the spiritual side remains the same. And it only appears very clear the way everybody would see it on the judgement day when the spiritual eyes are opened and the light is on (repeated).

SHAPE OF THE BUILDING ON THE ROCK FOUNDATION WHICH NO AMOUNT OF WIND OR STORM WILL FALL ANYTIME PROPOSED IN THE FIRST CENTURY HAS APPEARED VERY CLEAR IN THESE TWENTIETH AND TWENTY-FIRST CENTURIES. FOUR PILLARS THAT GIVE BUILDING ON THE ROCK IT'S DIVINE SHAPE.

Two persons among these four remnants of the cornerstone in question were not gifted to be used in separation of bones from the fish. They were not gifted to be used in differentiation of foot print of a cow from capital B. Again they were not using parables or illustrations to compare physical things with spiritual ones as to make some point easier for understanding among men for the coming kingdom. And they were not gifted for settlement of dispute among men for the coming kingdom.

Therefore they were made to serve like women in their case with the men in these areas mentioned. While the other two who were gifted to be used in these areas served like men in their cases with their fellow men, women and children for the coming kingdom.

But qualities of selflessness, simplicity and confidence in the lord displayed by these first two were unique among men. And after these were tested in the light they were lifted up above that of any created human being on Earth.

After that the creator Himself declared them unreachable standard to created men. He also described them as most important sect of virtues with which to hold what is important the way it is important that no one will take it away from the holders.

These were so lifted up that when voice of the four remnants (one of the latter two) moved with a determination to achieve the same, he only got to that level at a push but find it difficult to maintain steadiness as they do, which proved it unreachable standard to any other created human being.

And the creator has decided that each man among these few in question will be made to see how these virtues concerned him and his office as a man.

Because not only that they are so important for anyone who could hold what is important in the present life, they were achieved by their fellow created human beings.

And this had resulted from intercession of mighty God (Jesus Christ) before Him(the creator) for the latter rain, which is done on behalf of the stated chosen people.

Therefore each man among them will see these qualities as what he is expected to achieve or rather do his best to achieve them before his own level of perfection in these areas would be marked as those of a person who deserved spiritual benefit of them.

Since they are measurable, quantifiable, documentable and will come in handy in a man's case with women and children, both those in his life and those around him anywhere he find himself.

While four different promises were made through the office of voice of the four remnants (on behalf of the latter two) which are the following.

No.1, the closer of the fulfillment of this programme the clearer of activities in his office.

No.2, voice of the creator Himself will start sounding such clear to his ear as if microphone is being used in speaking to him; so that there will not be a case of not hearing well from Him. And this has started to be so when only two (among these four remnant) remained in the city, before they left the city for their village in July 1991.

No.3, as long as this programme about latter rain; central body of believers in the creation of the universe and other cases surrounding them in the light are concerned; whatsoever He (the creator) knows which he don't know, will no longer take place to his detriment before Him,(provable in the light). Again, what He sees which he cannot see; what He understands; what he could remember; what He would be able to do etc. are not left out.

No.4, now you (four remnants) are established on the rock foundation as pillars and these pillars have given both the rock and the building itself the expected shape they deserved. As a result it is now very clear that every material to be used must be selected in line with the same qualities of the rock and the pillars; so that the building will never fall down anytime no matter the level of wind or storm that comes against it.

Therefore you (four remnants) who are behind these pillars are regarded as benefactors on the gospel striving track (resulting from the same intercession) while beneficiaries are mankind in general, particularly the stated few.

These few are regarded as perfect individuals stationed in the light to strive towards a higher level of perfection made for man, woman and children respectively. And these included those of them who will be carried along through their obedience to their physical gospel striving mentors.

And they are expected to take such obedience for granted the same way the creator Himself takes those of these four remnants; particularly one of them who hold mantle of the cornerstone vision.

The outsiders will see the difference between these two sides very clear when there is time to amend and also prove that they have seen it. But that will not stop them from contradicting gospel striving specifications in their own reaction to those who had contradicted these to offend them.

An offence which the stated few will put every effort to avoid and the creator will make it possible for them to avoid it (provable in the light). It will not eradicate their tendency to pursue human respect, pleasure of the flesh etc. or avoid the urge to feast their eyes/ears on some unclean issues, the way human nature want them at the expense of the stated striving system.

An error which these few will put every effort to avoid and the creator will make it possible for them to avoid it (provable in the light). And it will not stop them from being used by some fallen angels against these few in question as to discourage them, confuse them and draw them back to join those who stick with the herd about community lifestyle to the detriment of this striving system.

To put it in a nutshell; the majority cannot avoid contradicting these few in word and action so long as they are still together. It is a proof that they never put every effort to avoid contradicting the gospel striving specifications as these few persons endeavour to do (an error which they will see as permanent failure sooner or later).

Again when these things will be going on among men, it is only on few occasions everybody from both side will see them the way all will see them on the judgement day. But in most cases all that glitters will be allowed to appear as gold on the part of the majority, until the final separation for eternity in different destinations.

WRONG ASSUMPTION

In the first century the Lord Jesus Christ had said, I will build this church on this rock. This was made to go in line with the latter rain to come. And majority of the people had misunderstood it to mean that the building took place at the same thing.

They assumed that since it was made to stand test of time, it means these leaders who quote and read it out in modern time, are on the striving track, producing abiding fruit of the Holy Spirit.

But to those who were gifted with what it takes to compare two similar things and conclude positively, shape of this building defined by these four pillars in this twenty first century is enough to belie that wrong assumption.

INSTANCES

It was a case of all you need is believe and before now both majority and these few were all believers, but now it is a case of which side are you?

Again, it was a case of nobody will come to the Lord Jesus Christ except the father in heaven makes it possible for such a one.

Before now everyone who believed and goes to church or received some gifts through the spirit poured upon every flesh in these latter days had come to Him.

But now it is a case of nobody will join these four remnants in question both physically and spiritually (provable in the light) unless the father in heaven makes it possible for such a one etc. (resulting from the same intercession).
