

CENTRAL BODY OF BELIEVERS IN THE CREATOR OF THE UNIVERSE.

Central body of believers in the creator of the universe, known as 'The Almighty God, Almighty Jehovah, Almighty Allah, etc. Is now under existence and it is through it destined few chosen for the coming kingdom (F.C.F.C.K) would emerge, on the process of the latter rain made to be greater than the former.

This is as a result of promised intercession on behalf of the few fortunate ones from all over the world who are sincere before Him in their effort for the coming kingdom.

And the few happened to start with these already stated four brothers from Igbo - land or Igbo tribe in Nigeria who emerge after a long process of testing and comparison about doctrine/ideology in the Christendom.

So in case of anxiousness to find out the genesis of this; one needs to be conversant about preceded write-up, concerning the whole case including the process of God's own choice of persons to be used.

From continent down to a prayer warrior group in Saint Augustine Parish, Benin City, Edo State of Nigeria, who shared bulletins about the case dated 27th of March, 1989, even though the whole case had started in the city around 1973, that was before the four brothers emerged which was made known to other parishes in the city by special announcement in May 1990.

The creator had destined to use voice of these four brothers in question for unprecedented clarification that goes with conviction and satisfaction about His word, His law and His ways in relation to the coming kingdom.

Before now He had allowed people in Judaism, Christianity, Islam, etc. who use the Bible, the Quran, etc. as their own guideline to worship Him in different ways for different purpose.

All the while each group have quotations and interpretations from His word that make them fill very sure that they are on their way to the coming kingdom and stand telling others to join them.

But by now, it is very clear that man-made doctrines are at work to the detriment of His word in each of them and certain things they had already known as abomination on to Him through His word are now mixed up with His approved doctrines in each group against permanent cordiality with Him.

Therefore, it would now stand very clear to all that people were permitted to interpret His word for the coming kingdom to suit their mind and their purpose both in the darkness and on the way that seems right before men.

But these had only served for some time to confuse the general public until this light shines for clear difference to all for the sake of people from any side that truly deserved permanent cordiality with Him from now onward.

This very test for permanent cordiality with Him is a repetition of the very cause of the first war in this universe (among spirits in general) and it would result to a serious test among human beings in general.

Before now a lot of people were already very familiar with a quotation which has pointed out that building on the sinking sand shall fall (what a great failure shall it be?) And another quotation had also pointed out before now, that the first shall be the last and vice versa. While those who live to experience their fulfillment will now see how they concerned those who are already remarkable servants of the Almighty God in this general corrupted world, particularly the leaders.

It would also be the proper time to point out where the main confusing point lies against all who would not see spiritual side of the cases involved very clear and steady on their own.

PART OF IT.

When God lifts human person up among men through anything or any means, such a person normally puts much effort to remain high in order to continue with such a service expected of that caliber of a person in the midst of others.

This is because both spirits and human beings naturally loved to be lifted up or naturally wants to be esteemed by others and both the wisdom and effort needed to do so move according to nature. But when God brings a man down in the midst of others for a service that has to do with permanent cordiality with Him in this life and in the life to come, the latter case is in sharp contrast to the former.

Because that low position is neither desirable nor pleasant to the nature of spirits or human beings still it is there a human servant must remain if such a one must continue to see how things go among men in a similar way to the way God Himself who is above all see them in the midst of other servants who did not go down to that level and can never see those things the same way. This also leads a man on that position to avoid certain things others would not put equal effort with him to avoid since they could not see them as he does unless he convince them to join him with power behind fear of failure before God.

So if for any reason such a servant is lifted up among men above that level due to ignorance or inability to see everything involved very clear he would instantly stop to see those errors which had appeared very strange to some people and once he stop to see them he would stop to avoid them as before.

Then if there were some willing listeners who had joined him to avoid them before hand, he would stand to confuse them about truth of the matter and if they must continue positively with God, he would stop playing leadership role to them about the coming kingdom, which could be to his own ignorance.

HOW THE STRANGE SYSTEM GOES.

The general master goes beyond human expectation to ensure that a man He favours with this low position in the midst of other servants for permanent cordiality with Him trusted Him as a perfect master.

This is as to allow Him to decide the way things should be, including what human nature want or hate, both physically and spiritually above such a one's personal view and so far the man is successful in that office he is holding authority of man over all creature including Satan, woman and children (the cause of the first war in this universe).

Again as long as he puts every effort to work with God both to receive this low position and to remain on it, he serves as a good manager of trust from God, woman and children for heaven sake. While his fellow human beings who deserved the same permanent benefits of that authority serve as sincere givers of trust to both God and such a man for heaven sake and this included women and children or any sincere follower both physically and spiritually whose cases with him are those of a leader and follower, mentor and mentee, etc. he equally goes beyond their expectation and personal view to decide the way certain things would be including about what they naturally like or hate.

But for those of them who had grown enough to reason properly on their own they equally deserved the said clarification that goes with conviction and satisfaction as often as possible for renewal of their trust.

And this would serve to return system of home training and guidance with which to build home and also give every positive minded person what it takes to see how misunderstanding starts and how to avoid it for peaceful co-existence.

This would go level by level in which someone who had done one's own best would still see the need to depend on assistance of another one who knows better for success as it is in this light. This case is so reshaped that everyone involved from the Judaism, Christianity, Islam, etc. will now stand to learn the ropes on the process of this latter rain.

And based on the values already attached to certain things on the part of man those things King Solomon achieved and enjoyed in this present life have their own high values, but they have definite end.

And a man who would continue to pursue them at the expense of the said authority of man over all creatures proves that he is not yet chosen to be a good manager of trust from God, his fellow men, woman and children for good judgment in preparation for the coming kingdom.

And on the part of woman; one could be the queen of the whole world (for life) or be the most successful gold digger among men, which a woman could achieve as valuable and enjoy for a definite time. But a woman who continues pursuing these or similar ones to them at the expense of permanent benefits of the said authority proves that she is not yet chosen to be a willing listener and sincere giver of trust to God and man for good judgment in preparation for the coming kingdom.

OPEN SECRET ABOUT MAN AND WOMAN PEACEFUL COEXISTENCE WHICH PRESENTS THE SAID LEAENING OF ONE’S ROPES INEVITABLE WHEN ANY ONE JOINS CENTRAL BODY OF BELIEVERS IN THE CREATOR OF THE UNIVERSE.

Key points about the modern trend are woman as a partner does require man or expect him to produce for her what God did not give him and failure to do so results to misunderstanding. Man in the other hand, requires woman or expects her to produce what God did not naturally give her the same way He gives to man and failure to do so equally results to the same unfortunate remark.

PLAINLY.

When a man is finding it difficult to meet up with his normal family responsibilities in the usual way due to hardship or scarcity of money an ignorant woman attributes treatments she receives from him resulting from that to lack of love as to take good care of her, which influences her words and actions negatively.

And if the case concerns an ignorant man who lacks positive understanding of the situation his words and actions would stand displaying mutual misunderstanding with her.

Because it is now hidden from most men that woman was not created to approach certain cases with careful chosen words and balanced consideration like a man who avoids evil with fear of God.

PERMITTED MIXTURE OF MAN AND WOMAN QUALITIES; POSITIONS: WAY OF DRESSING ETC. WHICH SERVES TO PRESENT ERRORS THEREIN VERY CLEAR BEFORE CORRECTION.

White witch or the spirit behind science and technology is in the front line about the modern civilization and physical development.

And he is the one through whom this mixture in question was introduced to mankind against the former word of God about them. His ideas were very much acceptable to mankind due to good and important things equally made available to all through his service which he continues providing for pleasant and happy living among men.

But one thing is missing out from the system, which is avoidance of evil with fear of God; a quality he does not have for himself and therefore cannot give out to anybody.

And since the fear of God is the beginning of wisdom all those who value anything of this life without it due to their inability to have balanced view over what is going on, would be given a chance to see it on time for the sake of fortunate ones among them.

Because even though the spirit in question is doing good things for everybody among men all these things will only serve for a while before those who could not achieve permanent cordiality with the Almighty God, Almighty Allah, Almighty Jehovah (name Him) would stand to regret their past life.

ON THE POSITIVE SIDE

Unlike ignorant man who could not see things as they are in the light a man who could see them uses some questions and explanations to direct a woman's thought to some areas she would not go on her own.

That used to be after a successful case in which he had played masculine role and covered the woman up before God and anybody who could see the way such a case should be on the positive side.

And this very point stands useful both to build a woman's trust in a man and to renew it when the man concerned had won mutual trust with God and put every effort to do the same on the part of willing listeners of the truth anywhere.

God does use these questions and explanations some times to remind a man that he never reason over cases the way Himself does and if the man appreciates it he use them on the part of woman and children for the same purpose.

Again a man who could manage things o this present life like refugees in the world used to handle cases of hardship or scarcity of money differently from the usual way of the world. He sees what he needs for success in his office the way God Himself see them and consider them important the way God does as his own master.

Then if a woman, a child or any one in a position to depend on him for support comes up with a different view against it; what the situation requires is careful chosen words to change such a view from negative to positive.

And if the case concerns a positive minded woman or child it could serve like a delicious meal to a hungry person. Because the person would see it as a proper way to stop him or her from comparing oneself with those who are not pursing the same interest with them or imitating them against their own system.

And this is the basic point about a man's love for woman and children that stands test in the full light provided among men for good judgment that leads to the coming kingdom.

Sometimes such a man could be pushed by a woman to contradict God, either through verbal language or body language, based on personal view over a point due to ignorance or inability to see cases in his own off the way he does.

But being a man of his caliber he remains used to work with God his own master in handling cases of his own subjects as to achieve trust worthiness on both sides recognizable as so by all who have balanced view over the case. And sometimes the situation would require miraculous silence in the face of provocation, humiliation or any other type of undesirable treatment in order to see ignorable points as so and see important response from spiritual side of it as to avoid any regrettable mistakes or remarks.

Sometimes even those who would benefit from his success about it join the opponent to tempt him in the face of it particularly when some outsiders were so involved as to make them fill humiliated along with him.

PHYSICAL ADULTERY AND COMPARABLE CASE TO IT ABOUT TRUST.

Physical side of adultery on the part of a woman could result from admiration of a man who is not her husband; desire of what he could offer or some pleasant language he uses on her. And among these willing listeners who should be sincere givers of trust to God and man for the coming kingdom; if God approves a man to a woman as such a stated good manager of trust he is like a husband to her, as long as abiding fruit of the Holy Spirit is concerned. That means if any other man who is not approved to her by God approaches her with any message about the coming kingdom, it serves as a serious test to her, about who is who among the people. And she is not expected to open up the heart in the same way a willing listeners does when it concern a trusted preacher approved from above.

All she needs to do is gathering of points which she considered to be truth and important from the message which is to be confirmed as so through the man approved to her. Any woman could make some mistakes about this at the beginning because it has to do with a new system and everyone involved is out to learn the ropes like herself. Therefore when such a mistakes occurs all she needs is correction with enough fear of failure before God through that way.

But if the error continues, it is regarded as adultery against God and against such a man approved to her, particularly when certain things that favour the flesh against the spirit are always involved. This is as the saying goes, that it is a woman's prerogative to change her mind (or natural for her to do so).

It will stand very clear to every positive minded person that only a man who could avoid mixing up physical blessings of God with spiritual ones at the expense of the striving system could be used to do the same for a woman in God's own way and time.

The same is about things that favour the flesh against the striving system. While most men who could not do these for themselves have what it takes to confuse any ignorant woman about the new system provided to avoid such errors.

I FAVOUR WHO SO EVER I CHOOSE TO FAVOUR AND THOSE I LOVE I CHASTISE.

It is already stated out that people worship God before now in different ways for different purposes but each group thought that they were on the way to the coming kingdom.

It is also stated out that mixture of man and woman qualities, positions, etc. would not remain but be returned to the way they were made for the coming kingdom on the part of those who deserved it.

Another thing is to differentiate God's love for the whole world from this point above (I favour whosoever I choose to favour and those I love I chastise).

This is because most of the people on the way that seems right before men have certain things in common with these few who put every effort to achieve good judgment in preparation for the coming kingdom.

And one of those things is God's own loving-presence to all the people He loves, which He proves to them in different ways for different purposes.

Another one is instructions and corrections He gives to the people in similar ways for services in their different offices.

Others are certain errors which could hinder services in their different offices, which He normally instruct them to avoid for success of those services in those offices and this included those who serve Him with reprobate mind etc. these therefore should not be confused with the ways He handles individual cases of man, woman, child, leader, follower, mentor, mentee, etc. for the coming kingdom.

For instance, a woman on her own was not made to see her limited thinking power and reasoning ability in comparison to those of a man who was created to cover her up about them, but through such a man.

And a man who misunderstands her different qualities from those of man as most people do outside this light cannot handle her cases successfully for the coming kingdom as the people will now see.

This is whether he does it for good relationship with her in this present life or misunderstands her as to involve himself in mutual misunderstanding with her.

It is number one among other cases through which man proves himself trust worthy for permanent cordiality with God or lack of it.

In the same way nobody was created to see every error in one's life which could hinder the person from joining those who are doing their best for the coming kingdom and avoid them, unless there is no human person to be used by God who could see them better and avoid them.

And this is irrespective of good services in one's own office for a different purpose or how popular the servant is with men for those good and important services.

Again, to see those errors and point them out to a person with conviction is one thing but for the person to take correction is another.

Because such correction is not taken so far the errors are pointed out; instead it is only when the person deserves it before God.

That was why the Lord Jesus Christ says no one will come to me unless my father in heaven makes it possible for the person.

And when He said it, He was not referring to the multitude or numerous people who moved after Him for external miracles and some other external benefit of moving after Him.

And through practical examples, coupled with what appeared in the light about it the following two points do not allow correction to take place in the heart of a listener.

No.1, a man or woman who still takes pleasure in any error against the striving system could simply frown to prove it when the truth about it comes up which is a sign of rejection even though the person may say something else to cover it up.

This is because such a sign would not appear or take place when it concerns a willing listener who had opened the heart down for some important corrections from God.

Therefore, in such a case God normally allow the person to reason over it as to find out some excuses that suit his or her mind in order to continue as before, including about the areas he or she is doing well in the service to God and humanity.

And No.2 is most of the people who hear such errors pointed out normally ignore them based on how they related to certain things they highly valued and considered them good and important in their former ways of life.

ABOUT QUESTION AND ANSWER AMONG THE PEOPLE.

Again in some cases, people normally ask questions about God and His ways or who is who among His physical servants which could end up as if those questions have no convincing answers from God Himself who is always there.

But some of the reasons are He knows the purpose of those questions and also know when the answer is important and when it is not such important.

And accurate answer to a question is not expected from Him, convincingly unless the questioner deserved it either because of sincerity and eagerness to know Him or that Himself wanted the person to see what is there for a different purpose. If not, it is only important to be so when the questioner has come of age physically and spiritually as a person who is growing up or developing as to know and understand Him more.

And in such cases He is the one who decides which servant to be used based on qualities of message He circulates through such a servant high or low.

While the most important question about a man whom God used yesterday for high quality of message concerning the coming kingdom is whether he is still useful today or not without deviation from it.

And if someone is being used in such office today for such high quality of message the question should be what of tomorrow? Because it is easier to go down as to start service in it than to sustain success in it, since all these offices among men which stand confusing almost the whole world against it are still there without exposition.

But good news is already around; voice of the four brothers in question has points from experiences or practical examples to expose confusing offices in relation to the coming kingdom. This has to do with already stated unprecedented clarification that goes with conviction and satisfaction about God's word His law and His ways in relation to the coming kingdom. While beneficiaries are people from all sides who would come up with sincerity and undivided attention and effort.

And He the Almighty God, Almighty Allah, Almighty Jehovah (name Him) is ever ready to use him without any hindrance against His own way and time.

STILL ABOUT QUESTIONS AND ANSWERS.

Questions asked as reporters of some media relating to religious cases; the ones asked in some Bible study classes; questions after some religious public talks etc. have different purposes to serve before God.

Some other ones similar to them are questions and answers to win some prizes in competitions or quiz about religious issues.

Sometimes those who study the word of God for such purposes or encourage others to follow that line about it do think that all are the same; so far they have to do with knowledge about God.

But looking into what is there in this light for striving system, these are far different from questions asked at any stage of genuinely repentance concerning the areas such a one is finding it difficult to overcome some errors pointed out about the striving system.

Questions asked in the counseling rooms when there is a case on the ground particularly when it concerns positive effort to avoid contradiction to the striving system.

Questions asked about the areas one is finding it difficult to accept and apply unpleasant side of the system of which such a questioner is convinced that such a mentor had already accepted and applied them the way it should be etc. And as long as the striving system is concerned useful question and answer go with a specific case in most cases of which a person who has most balanced view over it must be connected with.

This is in order to have it solved for the stated system even when a similar case such a one had experienced in the past is concerned. Because those who could see spiritual side of any case involved have what it takes to choose the right word from synonyms, ambiguous or a similar word to another in each case of which a word needed for success could not be replaced with another.

But an ignorant or a person who lack such a balanced view may quote what had taken place in the past and served for success only to misplace certain things about it at the moment and end up to failure.

SIMILARITY FOR A BALANCED VIEW.

Professional lowers and other choice makers over such words outside the striving track know for sure that a specific case must be involved before it, if not he who quote from the past case and applied may be wrong about a case at the moment.

This is just in the same way a ward could be fixed with some other words to form an idiom and those who have balanced understanding of the idioms would not replace it with any of its synonyms if the point must remain as an idiom.

While those who stand to follow the striving system but ignorant of this point simply apply what they had known in the past the same way people do it about the law of Moses but ends up to failure.

And God himself is always there to direct for success when it concerns genuinely repentance or positive effort for that.

But this is going on in a way those who involve themselves in the other side of the whole case for different purposes could not understand.

LOVE AND CARE GIVING/RESPECT AND OBEDIENCE IN RELATION TO DIFFERENT AUTHORITIES IN THIS UNIVERSE.

There are different levels of authorities in this universe and before now most people did not understand how they were made to work when it concerns both physical and spiritual side of cases.

It is already stated out that creator of the universe has His own reason to allow people in Judaism, Christianity, Islam, etc. to worship and serve Him in different ways and each group is doing so with every hope that others should join them in their own system if they must enter into the coming kingdom.

But the practice of love and care-giving/respect and obedience in each of them as of today is ever partial which could not stand test in this light for good judgment.

This is as to receive and maintain holding the said authority of man over all creature including Satan, woman and children.

What is going on in each of them are partial love, partial respect and obedience, partial help, partial tolerance, partial forgiveness, partial empathy, etc. and these have nothing to do with directive from God or fear of failure before Him about them as the practice goes in the light.

Instead, in one hand they have much to do with what a man gains or enjoys in the flesh through a woman he loves.

And in the other hand what a woman gains or enjoys in the flesh through a man she respects and obeys.

Other reasons are what someone gains or enjoys in the flesh when it concerns love or help to one's own blood related persons and friends or even what the person may suffer in the flesh in case of failure to do so when that was expected of him or her etc.

The true qualities of all these have appeared in this said light and they are motivators of most careless, tactless and undesirable treatment to one person in order to please another. The same careless and tactless treatment are also applied in order to get what could be used to keep another person happy in the name of love which only serves as so inside darkness and on the way that seems right before men.

It has also been stated out that the true position of man who could see what is going on among men in a similar way to the way God Himself see them is very low.

This is where a man who holds the said authority must remain in order to see what others could not see equal with him and avoid what could lead to sin more than others.

And when that is so this authority in question stands to serve as superior to any other authority among men, including authority over a number of men, women and children.

In the other way round it means that such a man who has authority over all creatures but in the lowest position among men, is also subject to a person with authority over men, women and children.

But the spirits that move human beings to do anything sinful without fear of failure before God are subject to him, including the ones behind that person who has authority over men. That means if he is accused of offense against law of the land or constituted authority among men he could be punished by the person in the authority which he must accept as part of his own cup among men. And this is taken as the gospel cup only if he neither contradicted God in any way about that accusation, nor misunderstands anybody among his physical opponents.

This is both when he is personally involved in a case and when it concerns someone else who needed his assistance as a man with that authority over all creatures. In other words, none of these spirits that move people to contradict God has power to move him into it, or to misunderstand anybody who had contradicted God to offend him. Instead himself could be used to explain the way it should be to some listeners and on-lookers, both in words and actions as a person who could see errors clearer before God and also avoid them better among men, which they may see as so that moment or later.

BOTH ECCLESIASTICAL AUTHORITY AND SECULAR AUTHORITY DO LEFT MAN UP AGAINST THAT LOW POSITION MADE FOR THE AUTHORITY OF MAN OVER ALL CREATURES. THERE BY STAND CONFUSING MOST PEOPLE AGAINST CERTAIN THINGS A MAN COULD SEE AS ERRORS AND AVOID THEM ONLY WHEN HE IS IN THAT LOW POSITION.

This Head line above is the main reason the church was built on the sinking sand and the main correction needed for the building on the rock.

This had caused confusion in the Christianity before now in two different occasions, both in the first century when the Lord Jesus Christ and John the Baptist were involved and in the twentieth century when the said four brothers were involved.

In other words it was the hidden cause of the Inquisition (or the Holy office) on the process of the Christianity.

And exposition of spiritual sides of these (two remarkable events) stand to serve as practical examples against building on the sinking sand in this twenty first century when a lot of people who were there and experienced events of the twentieth century are still physically alive.

THE WAY IT HAPPENED IN THE FIRST CENTURY.

We all know that every society, community, religious group, etc. Have distinguished personalities in their midst.

This is in such a way that if anything concerns one community and another, involving some of these important personalities they do look for the same caliber of persons from their counterpart or be interested to hear from them before fixing their own value or regard to what is going on.

We also know that a responsible man in the society does marry a wife (or some wives) and have children if not so something else must lift him up in the midst of others above uselessness before he would be regarded as a responsible man.

One of those things is the use of anger and demonstration of strength in defense of the community in the battle field or other ways in which such strength could be demonstrated on behalf of others. Another one is achievement of tittle ship in the midst of others which normally goes level by level in different field of human endeavors.

And some other ones are the use of one's gift or skill to entertain others or using one's achievements to put smile in the faces of people who are in positions to share from such achievements etc.

In the religious cycle it was certain that their own high caliber of persons were those who held the Ecclesiastical authority and that was before John the Baptist and the Lord Jesus Christ went to the desert for spiritual side of religion.

And while either of them was there he was in that stated lowest position made for a man who could hold authority over all creatures.

Then through fasting and prayers he could see the way certain things were going on among men in a similar way to the way God Himself see them. And that had to do with most of the errors which had hindered fruit of the whole law through which the people thought they were prepared to enter into the coming kingdom.

Certainly either of them was convinced from above that he could avoid those errors, which normally go before open sins more than anyone else among all who were known as children of God, including those who held the said Ecclesiastical authority.

And that was provable in the light where everything stands the way it should be for the coming kingdom.

While most of those errors he could avoid before God sounded very strange to the people at first hearing since they could not see them in the same way on their own.

But the message has its own convincing power whenever interpretation and explanation concerned those who could see such errors with fear of failure before God, particularly when positive minded ones are involved among listeners.

Then when this message in question that comes to change important position among men from high to the lowest for the coming kingdom, finally came up among the children of God it became a stumbling block.

A POPULAR SAYING AMONG IGOBS IS IN THE BRACKET

(Ana Enwe Obodo Enwe) This could be translated to mean that every town is owned by a special sect of people.

Referring to already stated point that every society, community, religious group, etc. have distinguished personalities in their midst who work hand in hand to protect their interest in some areas.

In other words, if anything comes against their position or their special regard in the midst of others, they may not allow it to stand unless they don't have what it takes to challenge it, or that their will against it is hindered from above.

And two things were very clear about the message in question; number one, it does not encourage high position among men particularly in the religious cycle; number two, the people who came up with it were not important people anywhere among men.

Then coupled with the fact that it was difficult to understand unless the wisdom to do so is given from above most important personalities among men were unanimous to reject it.

The cause of their rejection had led some people to use the following language to the Lord Jesus Christ when they wanted to trap Him with a question.

Master, they had said, we know that you are an honest man who preach the word of God without fear of anybody because human rank means nothing to you, so tell us is it good to pay tax to the emperor or not? That was because even their own caliber of persons in the religious cycle were defending the same interest with the outsiders about high position or rank.

And God Himself who has His own plan for everything and time for everything made the people from both sides to have different view and regard to the case and about one another for different purposes.

He made the high priest and the people who held the same Ecclesiastical authority with him to regard John the Baptist and the Lord Jesus Christ as giants would do for some mosquitos or crickets.

And this regard was so with human point of view, because if they were compared to the men who married wives and have children in the society they were regarded as irresponsible men. If such comparison is done on the part of the clergymen or those who held the said Ecclesiastical authority they would be regarded as lay men.

And if it is done on the part titled men or some materially achievers in the society they would be regarded as common men e.t.c.

Again they were neither entertainers of the people in the society through sports, music, etc. nor fun seekers in the usual way.

Then only one thing remained, which was gift for miracle: and we all know that it was so visible on the part of the Lord Jesus Christ that anybody around who did not benefit from it directly has relatives who benefited in one way or the other but it was not generally counted or accepted as hand work of God.

Why because those who held Ecclesiastical authority attributed the whole case to demonic service, since they were defending the same interest about high position, rank and other values in the society, which the message did not come to encourage among men, against the striving system. And in the whole society, particularly among the children of God, these people were known or regarded as those who were closer to God than anyone else as to know Him better and understand Him and His ways better.

Therefore those important personalities all over the places who took them (those leaders) at their own valuation as men of the same caliber with them simply influenced their own people against such a strange message.

But on the part of the Lord Jesus Christ the regard to the message and other people among men was upside down in comparison to most people's regard for either of them.

He was made to see the high priest and high caliber of men in the society as great leaders, teachers, etc. before the general public; still as long as this message for the coming kingdom was concerned they were just like little babies.

And that was provable to everyone among them in this light that goes with the message whenever God Himself decided to let anybody concerned see good judgment and preparation for it the way everybody would see them on the judgment day.

TWENTIETH AND TWENTY-FIRST CENTURIES EVENTS INVOLVING THE FOUR BROTHERS IN QUESTION.

The most important points about these twentieth and twenty first centuries events are written down just like their counter part in the first century; below are some of the things they have in common among men.

No.1, Presentation of this message designed to change important position among men from high to the lowest for the coming kingdom, while some clergymen who held Ecclesiastical authority were there to challenge them against it.

No.2, The people who were involved were made to experience the same regard from the men with the Ecclesiastical authority as giants would do for some mosquitos or crickets. The same regard is also from all the people who accepted these clergymen at their own valuation to the detriment of this strange position in question, including some elders, leaders and some other members of the renewal group.

No.3, Their own comparison through which they justified their own stand about the whole case was the same.

In the sense that each of the four brothers could be regard as irresponsible man when comparing him to the men who married wives and have children in the society, so far the comparison is done with human point of view.

And if the comparison is done on the part of the clergymen who hold the Ecclesiastical authority each of them is regarded as a layman.

Again, when that is done on the part of important personalities among men like high titled men, materially achievers, etc. each of them is regard as a common man, etc.

But just like in the first century each of the four brothers maintained the same regard with the Lord Jesus Christ about the message and everyone involved in both sides which is upside-down.

Each of the four could see the men who hold the Ecclesiastical authority as great leaders, teachers, etc. but as long as this message is concerned, they are just like little babies, since it was designed to change important position from high to the lowest among men for the coming kingdom.

The same regard is maintained on the part of each founder of the new generation churches the stated elders/leaders the renewal of the church or any servant of God in the religious cycle that is lifted up among men above this position in question.

Because as the people will now see in the light the truth remains that it is only in this position a leader, teacher, mentor, etc. could see errors that stand against striving system more than anybody behind him.

And if he could avoid them better before God or put more effort to avoid them before Him only then he is useful to serve among men as a leader, teacher, mentor, etc. for the coming kingdom. If not so, someone could be useful to God among men for something else outside the striving track which may be only similar to it before men.

But it is actually in fulfillment of His word just like in the cases of other good people who are lifted up in the secular government or in other field of human endeavor, for a different purpose. And so long as this light is concerned, voice of the four brothers in question has all it takes to prove the case beyond shadow of doubt whenever God Himself considered it important.

NEW LAWS: PARAPHRASION OF THE OLD ONES: LOVE YOUR NEIGHBOR AS YOU LOVE YOURSELF: BE YOUR BROTHER'S KEEPER AND A CHANGE OF SHAPE TO THE FOLLOWING POPULAR QUOTATION: EVERYTHING WORKETH TOGETHER FOR GOOD TO THEM THAT LOVE GOD.

In the Old Testament, you were told to love your neighbor as you love yourself. And that has to do with treatment to others the way you expect them to treat you, based on what you know that human nature wants.

Then in the first century at the beginning of the New Testament or at the beginning of the former rain, which proceeded over this latter one made to be greater than the former; there was a change about it from above.

That is contained in the following statement: (love one another just as I love you) the Lord Jesus Christ had said. This has much to do with love among those who had already believed in Him with eagerness to convert others to join them in their own fold or stock.

But now most balanced statement about love stands as you see it in the bracket below (love your neighbor just as Jesus Christ loves you) which is second time amendment about it.

This has resulted from the following points: No.1, His intercession on behalf of the chosen people of God for the coming kingdom, irrespective of their former religious affiliations beforehand. No.2, Voice of the four brothers in question, who could be said to be number one among all who benefited from this intercession is made to understand the type of spirit given for abiding fruit of the Holy Spirit more than anyone else.

He is made to understand what it takes to be a sheep in the midst of wolves as wise as a serpent and harmless as a dove more than anyone else among men.

And through him cases about religious doctrines and who is who among men in relation to them were treated or handled in the light for the coming kingdom.

He is also equipped to interpret the following points to mankind for the first time in line with the whole case.

No.1, the said authority of man that caused war among the spirits before man was created and how it works among men for the coming kingdom.

No.2, That statement which the Lord Jesus Christ made; you are Peter the rock and upon this rock I will build the church, the gate of hell shall not prevail against it I will give you the key for the coming kingdom.

No.3, To present required qualities of man and those of woman as they are in the light in relation to the authority, of which all who are sincere before God about the coming kingdom, will now see the need to learn the ropes about them on the process.

These therefore, stand to serve for presentation of simple solutions for positive minded ones when two or more than two persons see one thing relating to the coming kingdom in different ways.

And these also have to do with qualities with which to achieve balanced love with any human person around and that must be provable in the light; balanced intercession for all; balanced human sympathy; balanced tolerance, etc.

Then in this case your neighbor included that man or woman around you who shows or displays physical or spiritual wickedness against you and your faith/against you and your dear persons among men.

This is expected to stand test in the light even when the Lord Himself had made it known to you that such a neighbor comes from evil stock and must return to that side.

This is because all you suffered from such a one in your effort to retain the gospel love as it is in the light with fear of failure before God is measurable.

And if you are so opened before God as to intercede for such a one's favour from God the same way the Lord Jesus Christ did as a man, it means that His love is being extended to sinners through the same hardware.

And God who directed you on the process values it so much that He often boasts of such achievements before some fallen angels.

This is to your credit as a human person used and it stands as most powerful love which a repented sinner or a salvaged human person could offer to unrepented person around; thereby stand without any blame when undesirable end is destined against such a neighbor.

Again, before now you were told to be your brother's keeper: and this is similar to cases about love; it has to do with one's effort to help others with what such a one has or what such a one could do, based on what the person knows that human nature wants.

But now balanced statements about it stands in the light the way you see it in the bracket below (Be your brother's keeper for heaven's sake) resulting from the same intercession. This is because outside this light, as people will now see a lot of people (if not most of the people) do commit offence against God to please their fellow human beings, or to maintain friendliness with them.

And with human point of view, this could serve in a place of effort by to be one's brother's keeper; particularly when it concerns those who could accept anything, they like as favorable offer no matter where it comes from.

The hand of Almighty God is always in all these things in such a way that those who receive favour from their fellow creature stand thanking Him for using such a keeper to favour them. But not all creatures is serving Him positively; not all men who serve Him positively is hold this authority in question and not all women who could achieve cordial relationship with men endeavors in support of this authority as to achieve permanent benefit of it with them.

It is simply going on among men because both human beings and spirits used to obey God willingly when it concerns what such a one wants or loves to do naturally.

But it becomes a problem on the part of those who are not chosen for permanent cordiality with Him when it concerns what they did not like naturally whether spirit or human being, which they may avoid if they could do so.

In the other hand, a man could stand with eagerness to please God in his relationship with the people both those in his life and anybody around him ; which serves in the light as part of effort to be one's brother's keeper for the coming kingdom.

But at the same time he stand offending some people from both sides. And this could simply be because they were not pursuing the same interest with him before God who gave that instruction or because of their inability to see spiritual side of cases involved up to his own level, still he is his brother's keeper positively before God.

It is also very clear by now that outside this light all who love God but stand serving Him in different ways for different purposes (stated above) often use the following quotation (Everything worketh together for good to them that love God).

This could be when they are happy for giving out something to favour others; it could be when receiving such favour from others or when something undesirable is involved, but these are in two ways which have to do with a while and all time.

Therefore complete shape of this quotation as it is in the light which serves for the coming kingdom goes the way you see it in the bracket below. (Everything worketh together for good to them that love God, who are equally ready to drink their own cup among men the same way Jesus did as a man).

And this is the only way everything could work together for permanent goodness for anybody involved, including suffering among men, helping others or receiving of help; since it continues to be a favour even when temporary suffering, gain, reward, punishment, etc. are over.

NEITHER ANGER OF MAN NOR WOMAN CHARMS CAN ACHIEVE RIGHTEOUS PURPOSE OF GOD AND NEITHER THIS ANGER NOR THESE CHARMS WERE INTERWOVEN WITH THIS AUTHORITY OF MAN OVER ALL CREATURES.

Neither anger of man nor woman charms were made to achieve righteous purpose of God and either of them is not serving to obtain this authority of man over all creatures or to benefit from it. Usually important men in the society often apply the anger in defense of their political human right: those of the women, children and the vulnerable groups in the society.

They equally apply it while displaying their strength, their toughness etc., in different ways to distinguish themselves from some unimportant people around when circumstances requires it. In the other hand, a lot of pretty women at their charming age normally use their charms to attract or influence important men to their favour about anything they considered important in their lives, including provisions, protection, defense, etc.

But in this light concerned it stands very clear that these two weapons or tools (anger and charms) were not interwoven with this very authority in question.

This is in such a way that any man who is fortunate to go down to that stated lowest level and obtain this very authority for the coming kingdom have a different interest to pursue and defend in sharp contrast to the natural ones.

That means those who had depended on him about all these stated points like provisions, defence, etc. in the old system will surely realize that there is a change about human interest in which they are involved.

And those of them who failed to realize this in the proper way or time may have to suffer disappointment in some areas before joining him in the new system.

For instance a woman or a child who never know where to start in order to avoid causing misunderstanding with some outsiders may hope in the usual way that such a man as a husband or father will come in to side him or her against their physical opponent.

This is where disappointment may come in against such a one before joining him in the new system.

And for any woman at her charming age to be a positive partner such a man must first of all endeavor to smother these charms and replace the vacuum with fear of contradiction to the striving system.

This is the only reliable means to avoid failure through such influence in order to achieve permanent benefit of the authority for everyone involved in his office.

In the other way round, it is a known fact that this very tool or weapon called anger is so useful in the usual way of life, that people hardly avoid it in so many daily activities.

There is a saying that a good sells man must be aggressive if he want to succeed; which is the normal thing in the usual way of business.

It is also difficult to avoid anger in the usual way to train the children, particularly on the part of some parents who used to call them names when some childish foolishness are being displaying before them and this is taken as one of the ways to give them corrections, etc.

In the other hand, these tools or weapons called charms on the part of female persons are so useful in the same usual way of human life that in one way or the other either genders do enjoy some of the services with which they are known.

For instance, a female person at her charming age who puts effort to look good before the public, endeavors to be charming to the people.

And this is both when that is done with good intention and when it is not; when it is done by oneself and when it is done by a care giver to someone else etc.

Because these have to do with prepossessing appearance which could be said that both the possessor and admirers do enjoy it at ago, just as both sides do suffer hurtful effect when undesirable appearance or despicable one is involved.

But it is a fearful thing to see in the stated light that these important tools or weapons (anger and charms) which physically and naturally serve both for good and bad, never serve in favour of this authority of man over all creatures.

Again, none of them is working in line with fear of contradiction to the striving system. In the sense that when there is any sign of anger in the human heart evidence is always clear that this fear of contradiction to the striving system is not there at the same time.

And the person concerned cannot represent a sheep prepared to be in the midst of the wolves as wise as a serpent and harmless as a dove under such circumstances.

In the other hand when there is any tendency to use the charms on a male person in the usual way of that or when such a male person makes the first move to stir the charm up in the usual way, the

evidence is always clear that the gender concerned had forgotten that the charms cannot be enjoyed at a go with the awful presence of God.

ANOTHER SIDE OF THE SAME CASE.

In the other side of it; a strong man or tough man in the usual way of the world may boast of his strength which could be used to subdue his physical opponent, but this is of no use when it concerns success about this authority in question.

A pretty woman in the other hand, may boast of more charming than some other ones around and this could be of help for her to find more favour with some important men in the society. But this is of no use when it concerns permanent favour from God or man of which the only way to gain is now clearly stated out for those who are sincere about it before God.

It is the same about every other similar case in which the physical favour forces in the opposite direction from the spiritual counterpart.

Then any man or woman who is fortunate to be connected with God for due process to gain balanced view over the two sides, or rather to benefit from the most balanced view over them, will now stop imitating someone else who is not pursuing the same interest with them. And also stop comparing oneself to other persons around both those who are yet to be tested about the two sides of God's Favour and those who continue pursuing the physical side against the system for the permanent one's after such a test.

DUE PROCESS ABOUT IT

It is a rule in this light concerned, that a man with a sincere heart before God will see these cases as a man and stand to serve as a man before others behind him would see what is there through his service.

For this reason, it stands very clear in it that the hardest job a man could face in this life is to obtain this authority and maintain holding it among men for permanent cordiality with the Almighty God.

This is both for himself and any positive minded human person involved (male or female). And with it he handles human emotions including anger and cases relating to these charms with effort to be practical example to those who are behind him of which they must be convinced from the inner heart that he never imitates the world about them.

These are just some instances for a start, God Himself is always there to make the people fill His presence in a new way as a person who understands their needs better.

This is not the first time this type of a change had taken place among His people. It had taken place when Moses came down from the mountain which could be said to be for a particular nation. It had taken place when John the Baptist and the Lord Jesus Christ came out from the

desert and laid the foundation at the beginning of the former rain through which the promise came for this latter rain made to be greater than the former.

That foundation is the rock itself and it was laid for both the former rain and this latter rain in question. But that was when the following language used in reference to it "you are Peter the rock and upon this rock I will build the church, etc. was only metaphorical, not yet interpreted.

It was laid when many who are called for different purposes were yet to be differentiated with practical examples and illustrations from the few who are chosen for the coming kingdom.

It was laid when the inquisition with which the Roman Catholic Church is known had not taken place which had appeared as part of the ways introduced by the Lord Jesus Christ to make everyone join in the service to only one God. It was laid when Islam or Muslim system of worship which has certain things in common with the Law of Moses had not started yet.

Therefore, it was laid when different groups of people created by one God have not yet produced fruits of their own system in different ways for a single purpose.

These were destined and designed to undergo test in this very light in which central body of believers in Him, the creator of the universe would start. Since He is the one who knows the people that deserved the coming kingdom from all sides even though He bears different names among the people and had presented the system in different ways beforehand for this very purpose.

And this purpose has been expressed in different ways; it is simply to take any point considered good and important for the coming kingdom from all sides by degree of its quality which is done only in this light.

So as a perfect God He had destined all these to be so from creation but it comes up to mankind stage by stage in which the physical side appear strange sometimes or appear to be a serious change from the old system.

And this is always caused by some activities associating with the darkness which did obscure the main point in the latest instruction or renewal soon afterwards, while the spiritual side remains the same. And the meaning of this more important side is packed in these following points.

Do your best to produce the fruit of the word of God for the coming kingdom, as it is in this light. This is if you are fortunate to see the light, as one of those who deserved such life. Since the truth about your personal stand before God is provable in it when there is time to amend the past mistakes for this very kingdom in question.

CONCLUDING COMPARISON

Gold and fire are known when it concerns testing before the important quality appears. Human character and humiliation are known for the same point.

And in the same way system of worship and this light in question are known for testing to prove a building standing on the rock for the coming kingdom or not.

These are balanced comparison about the whole case and those who deserved the coming kingdom before God and stand defending their former system of worship before men, without ulterior motive or biased mind, will see it as truth that requires no challenging.

This is irrespective of how long their former system of worship have lasted among men or numerous people who had accepted it as reliable and dependable for this kingdom, since it concerns God's own way and time which goes with convincing power from Him for the chosen ones.

This is very clear, because importance of love for God Himself and love for one another; peace and tolerance with others, etc. which are the main points for the coming kingdom were introduced in each of these systems in question.

But it is in this light God Himself had destined to differentiate balanced ones that serve for the coming kingdom for the sake of all who are sincere about it before Him from partial ones designed to serve for a while and for a different purpose.

CARELESS TOGETHERNESS OF MALE AND FEMALE PERSONS WHO COULD BE MOVED BY NATURE TO MIS-USE SUCH TOGETHERNESS IS ONE OF THE CASES TO BE ADDRESSED FOR HEAVEN SAKE AGAINST NEGATIVE OUT COME OF THAT.

It is the duty of any spirit who tells a sect of people to avoid incest in their midst and to see it as abomination, prohibition or a forbidding act, to provide enough inherent inhibition that serves for such avoidance.

And this used to go with some guiding instructions to ensure the effectiveness of that on the part of those who avoid it with fear of failure before that spirit involved.

It was so both under the Law of Moses and in so many traditions of which a lot of people who saw it working properly against incest are still physically alive today.

This is taken as a starting point leading positive minded ones to avoid other types of immorality and other offences which could be avoided in the midst of such people who do so with fear of unseen power.

Therefore, it is clear that something is wrong somewhere in the modern time against this case of incest.

And this included other offences that go along with it among the people which is not ignorable when the light is around, but the cause is not farfetched.

It is part of the outcome of the stated point that the white witch or the spirit behind science and technology was permitted for a while to mix up many issues among men, against the word of God. Then due to an important role which the Lord equally assigned to him about the physical development and certain things that help to make human life easier and more enjoyable almost everybody accepted the new system.

So it is in this light in question everyone concerned will see what is there with a balanced view. And this will result to a change of regard to many good things through which the people were lured to ignore the word of God.

Even these spirits that take glory from the system knew for sure that it would not continue unchecked among men while most of the human persons involved never know.

They remained ignorant and continued fighting against some negative outcome of the wrong mixture in some ways that cannot change the situation to better.

But to those of them who deserved the coming kingdom of God it is a matter of time, they will have a different interest to pursue and defend in the light.

And this is in such a way that both the world and their ruling spirits would openly count them out of their own after some remarkable test.

From there those of them who have being fighting against any type of immorality and other negative remarks surrounding it without instructions from the creator of everything will see why they did not succeed before now.

And these would also open their eyes to see that capital punishment to the physical offender neither serve for the coming kingdom nor serve to stop the immorality and its concomitants among men.

Instead it is part of the ways to express anger and tendency to revenge offence of which the physical judge involved the prosecutor and all who accepted such punishment as what they want against the physical offender will not stand test about in this very light.

And those who are involved in this very system only do it because they have no option against human emotions; physical benefit of it, etc. which could influence natural human person against balanced view over it.

Sometimes they do forget that the same justice they wanted to achieve under the stated mood do change to the opposite side when the physical offender turned to be their close related person or someone they could be influence to favour.

But those who will accept to avoid any offence before God with fear of contradiction to the striving system will now be equipped and prepared to regard any physical offender like that closed related person.

They will see that such physical offender deserved treatment with carefulness and balanced consideration before God.

And also see that both such offender involved and those who could be moved by different emotions before men to handle such cases in different ways are in a similar shoe before God.

Therefore be motivated to endeavor as to convert anybody from either side to see that someone is always there who will later look into every offence committed among men with a balanced view. These are what these cases are all about; the starting points have to do with careless togetherness and a case of incest of which positive system to avoid leads to avoidance of other offences. We all know that such togetherness is physically enjoyable among men; it is more so on the part of some youths and some young parents, before talking of that of the children.

And naturally the eyes of human beings are so myopic that even such togetherness which could result to capital offence on the process could be enjoyed at the beginning of that process. Then if anybody who could see what is there at that very stage happens to point it out to such people both side of the party could confront such a one with some undesirable treatment for such effort against what either of them or children from both sides liked. And when it resulted to such capital offence, they could notice it with a shock to prove that they neither see it coming nor expected it to come.

These are both when it concerns adults and when some children that needed guidance are involved.

Then in order to avoid such capital punishment in the offing to oneself or to ensure it on the opposite side, the two or some people from both side would instantly turned to mutual enemies with mutual efforts to shift every blame to one side.

From there anything could be said or done just to win the case before men with little or no regard to their former friendliness or how it concerned relationship of their people past, present, or future. This normally starts from careless togetherness (repeated) and at this very stage both words and actions from either side are enough evidence to prove that they are still inside the darkness.

They are enough evidence to prove that the fear to avoid contradiction to the striving system in preparation for the coming kingdom is not in them at all.

This is irrespective of religious related names they bear in the most cases as if they are already in this very light.

It was not so under the Law of Moses because people avoided such togetherness with physical separation as male and female persons who could be moved by nature to misuse it. And it is very unfortunate that in the modern time most of the people in the positions to interpret the word of God for the coming kingdom could not see the spiritual side of these cases that covered up this light before men.

They could not see involvement of this careless togetherness to it. They could not see how it concerns the stated authority of man over all creatures which is now replaced with the ecclesiastical authority against the striving system.

And they could not see how it concerns two different types of favour from God to mankind which never faced one side in this light.

But most of them (these stated interpreters) could not join in the effort to avoid contradiction to the striving system due to divided effort for different interest on the other side of these favours. Thereby stand outside this light causing confusion against the striving system and these favours that never faced on one side in the light.

And it is only in this light more persons will now gain balanced view over these two sides of favour as to see confusing stand of such people very clear.

These are the main reason some words and actions of the Lord Jesus Christ as a man could be interpreted in the darkness to support wrong doing among men in many areas.

While Himself who terminated that physical side of the system to avoid misuse of such togetherness did it in the light for the coming kingdom.

And everything needed to avoid it both physical and spiritually is included in one's effort to avoid contradiction to the striving system as it is in this very light.

So this very moment that careless togetherness and wrong mixture of so many things are still at enjoyable stage among the people, the Lord has decided to point out the negative side of it in two ways through some human servants.

These are both the ways some of them result to capital offence physically which could lead to capital punishment among men and the spiritual side of it as it is in this light against the coming kingdom.

This should not be ignored by anybody involved among men because it is not ignorable. And such tendency for negative confrontation against those who are fortunate to gain balanced view over it is not expected from the stated class of people who find it enjoyable at the moment.

Because their own choice over it at the moment is neither enjoyable for all time nor ignorable for all time.

While undesirable out come of it is inevitable and this could be only in the end; it could be on the physical side of it which may still be hidden out by now, or both of them.

But no positive minded person is expected to experience it with a similar unexpected shock which used to be the case when the physical side had resulted to capital offence.

Therefore the Lord Himself who have sustained these four brothers in this light did it with good intension for His chosen ones all over the world.

Fortunately by His grace, the four brothers accepted all it takes to avoid anything offence before Him starting from spiritual side of them just as they are in this very light.

And through His instruction all their experiences considered important for the chosen ones to join them are available and stand to serve in His own way and time.

IMPORTANT OF THIS UNIQUE CONNECTION FOR THE STRIVING SYSTEM INVOLVING DECISION MAKING.

There are personal views without balanced (partial views over a point).

There are also balanced view; more balanced view and most balanced view over a point.

This is one of the important points attached to decision making and conclusion over any case involving two or more persons who are not in the same spiritual level for the striving system. And it moves in a way an outsider could neither see nor join to maintain without divine connection that goes with trustworthiness.

This is one of the areas most people who are called for any other effective service outside the striving track prove the different to those who have what it takes to know (one of these things which have not been explained before now).

Hiddenness of this is more dangerous when the people involved occupy physical positions for decision making as a husband and father involving some ignorant women and children or as leader or mentor at any level involving some ignorant followers or mentees.

Some practical examples were gathered from their cases with some people who are behind them (or under them) physically.

This is just to prove how dangerous it is to demand obedience with trust from others without due process about it.

In other words making such a demand when the person have not win mutual trust with God to serve as good manager of trust from God, His fellow men, woman and children for the coming kingdom, which such position serves to prove in the light.

But as long as this light is concerned the case is recorded resolved when this important divine connection has taken place for a share from most balanced view over physical and spiritual sides of cases among men.

And from now-on any woman who makes such a decision or conclusion in her office under minding God and man or trying to move man to do so as to favour her physically, will be mode to see what is there for her own good and that of other people involved.

This could be her own chance to learn through practical case and prove it when next such a case occurs or a chance to prove that she is not there to pursue and defend the same interest with the man about the coming kingdom.

It would be a different case outside the striving system, because most of the people are birds of the same feather and it is not easy to know who is who among them without the light.

In the sense that their men as husband, father, leader, mentor, etc. do apply mis-leading self-evaluation, due to their divided effort for a different interest against striving system.

And all who are behind them with such division of effort in any area of striving system for the same purpose are made to accept them at such evaluation on the negative side.

Then anything going on among them against the striving system could be left to continue as what they all deserved, even when there is light around unless directive to look into it for the coming kingdom comes from above.

This is because their own is a case of vicious circle; who is mis-leading who and who is confusing who.? Division of effort for a different interest against the striving system on the part of leaders, mentors or head of families had caused their mis-leading, self-evaluation. In the other hand, the same division of effort or a similar regard to different interest stand encouraging them from behind, about whom they are in their unreliable positions against positive system.

And this could be said to show that either side is not yet looking for God the way He could be found, in case of permanent cordiality with Him.

But for those who mixed up with such people beforehand who could be influenced to join them in some areas against the striving system due to their closeness with them it is not much of their fault, since the darkness had covered everywhere.

Then so far they could accept all it takes to move in the light, they will now be connected in the light to prove it.

And their physical relationship with any of them who remains outside the striving system will stop influencing them against it, no matter who the person is to them since this connection involves the most balanced view over everything and they have all it takes to be directed and be covered up on the process.

ILLUSTRATION OF A PROCESS VOICE OF THE FOUR BROTHERS WENT BEFORE NOW FOR THE CENTRAL BODY OF BELIEVERS IN QUESTION INCLUDING FEW OTHER CASES CONCERNING HIS OWN PERSONAL OFFICE AMONG THE FOUR.

At a time on the process of this very programme, the Lord in heaven had said to this stated voice of the four brothers, “your life is just like a basket in my own hand which I am making. I prepared the ropes for it by myself, I founded it by myself; I am now making it and about to finish.

When it shall be completed, I will drop it on the ground admire it and nod my head with confidence before I start telling the people to admire it as my own remarkable and cherishable hand work (a master piece).

And this is in backing up the stated unique and unprecedented clarification that goes with conviction and satisfaction about His word, His law, and His ways in relation to the coming

kingdom. Cases concerning individual offices of the other three brothers were expressed better in the precedented bulletin than in this very one.

That is under the following head line; ***few chosen for the coming kingdom (F.C.F.CK) dated 30th September 2019.***

They moved ahead of him under the corner stone and they had already surrendered everything onto the Lord both physically and spiritually the way it should be for the coming kingdom before he later joined them.

And here the few cases concerning his own office begins with some remarks that make different between gospel striving system and law of Moses, or any other system of worship among men that contains the requirements for the coming kingdom of God (the creator of the universe).

In the sense that the law of Moses or the ten commandments stand in place of that single one in the garden of Eden which had physical and spiritual sides.

And the recipients had contradicted it on both sides before the Lord disclosed his future plan to bruise the head of serpent that led them to failure about it through human person, while the person in turn will suffer serpent bitten on the heel.

And this equally has physical and spiritual sides, which is not easy to see and understand with human point of view as to please God about it.

Still neither the people who were involved in the Garden of Eden nor those who were involved under the law of Moses were fortunate to see physical and spiritual sides of it as to know where to start in order to avoid failure about it.

This therefore was the main problem that could not be solved with wisdom of the wise and understanding of the learned, which the high priest teachers of the law, e.t.c stood for among men, before John the Baptist and the Lord Jesus Christ went to desert for the only way out about it.

And through their own interpretation of the word of God, his law and His ways in relation to the coming kingdom it was very clear that they could see the two sides of the case as to know where to start in order to avoid such failure before God.

Therefore before Jesus Christ left some people who were convinced about this very point, He said to them, the spirit I will send to you will remind you what you were taught and also teach you knew things.

So in line with some other points interpreted for the first time for this central body of believers, this very statement was practicalized in the light before it stands as what makes different between the striving system and the law of Moses or any other teaching about the coming kingdom.

It simply means that in the face of any trial and temptation about the coming kingdom, what to do or say is not just to apply what you have already known about such a case from past experience in the usual way of doing it.

For instance, what you have read from the scripture which you could quote and interpret, or what you see or hear the way it was done in the past which is the way people try to do it in any other system outside the striving track. Instead what you have already known about such a case will simply serve like a stepping stone for you to work with the Lord Himself, as a spiritual minded person in order to know what you will do this very moment.

It is a time to ask how do you want me to do it now in this very case at hand since there may be different between all I know and what you know about it as a person with most balanced view and balanced consideration over it.

He may let you know what to do or say directly or through someone else who know better than you about it and in a physical position to do so.

Again when that is said or done you still have to confirm from Him to ensure that it was properly said or done the way it should be in the light.

This is to say that anybody who will know where to start in order to avoid failure about the word of God concerning the coming kingdom will never ignore this very statement.

It works hand in hand with effort to avoid errors against striving system, on the part of those who are eager to see both sides of any case involved.

And anybody who wants to apply it in this very sense don't need to ignore this interpretation as it is in the light or else the person could end up as an ignorant about it. Because it is taken as the most important duty of the Holy Spirit on the part of spiritual minded ones who are not playing ostrich about the word of God for the coming kingdom.

In the first bulletin about this very programme, which the stated prayer warrior group shared among them dated, **27th of March 1989**, the case was repeated in this way.

‘‘Never compromise over sin for nobody can keep the law and nobody had ever kept the law, that is why I gave you all the grace, for my son pleads on your behalf e.t.c.

He was referring to some spiritual minded ones among the group who had seen where to start in order to avoid failure both physical and spiritual.

A case destined to serve as practical example about the way it should be among men on the part of the chosen ones.

So interpretation of that statement after practicalizing it among men and see where to start for avoidance of failure, equally stands to work hand in hand with the stated connection as to have a share from the most balanced view over any case involved on the process.

And the protocol to do so equally has physical and spiritual sides, but the physical side of it is among some other cases people will now see as a new thing to prove that they had not seen it in the light beforehand.

Then on the process after sharing of the stated bulletin, this brother who later became voice of the four brothers in question was made to see clearly that the number one leader of the group was expected to undergo a similar process to what John the Baptist and the Lord Jesus Christ went at the beginning of the former rain.

But he did not know the very shape it would take this time, all he knew was that it has to do with the same deviation from the way it should be among men in the religious cycle.

The number one leader concerned has the gift of instant vision which is different from processing vision.

He was the person through whom the content of that stated bulletin came to the group on the stated date (27th of March 1989) before printing and sharing.

While this brother who later became voice of the four brothers is among the few persons who were gifted with processing vision about the whole case.

Instant vision/processing vision are just like instant dream/processing dream or instant photographic picture/moving picture.

A case similar to that of vision is the gift of prophecy which could present a prophet or a prophetess to an ignorant like a person who is always closer to God than everybody who benefits from the service among men.

But this is a different case from the stated connection with God for striving system which serves for such closeness.

It also goes with trustworthiness and some of the people who deserved benefits of their spiritual sides know differences about them.

These are among cases designed and destined to be explained for the first time under this central body of believers in the creator of the universe.

This brother who is gifted with processing vision was not one of the leaders of the group but he clearly saw what was expected of the leaders particularly the person who took position as number one leader among them.

So he was moved by God himself to explain what he could see ahead of the group to the leader since he was in the physical front position to do so that time.

And that was properly done but God had already destined to choose only four brothers from the group which He later did and He had also destined that this brother will serve as voice of the four. As a result this vision was broaden from stage to stage on is part until it stands to serve for every religion among men, that teaches about the coming kingdom of God.

And the basic ones among them were represented along the line, both physically and practically for some important references when needed.

It was at a suitable stage to God that He produced the name as central body of believers in the creator of the universe.

Then at a stage when the four brothers newly stand separately in order to face what is going on as it is in their different offices the brother gradually started that similar process John the Baptist and the Lord Jesus Christ went before the first rain began.

The same process he was made to see and narrated to the leader when they were still with the prayer warrior group.

It was that latter time the Lord considered it important to put what had happened and what is happening at the moment into the following plain language.

You were made to see what is expected of number one leader of spiritual minded people in a situation like this, when almost all the worshipers have deviated from the acceptable system. You were equally made to narrate it in full to the leader who was in the physical position to do so that time after process of my own choice of persons to be used, from continents down to the prayer warrior group.

And now you are standing to face the reality about it, without instruction from your fellow human being which is a prove that processing vision is involved in your own case about it. (One of the practical cases made to serve as reference points for differences about visions, dreams e.t.c).

THE STATED NARRATIVE TO THE NUMBER ONE LEADER OF THE PRAYER WARRIOR GROUP AROUND FEBRUARY 1990 BEFORE GIDEON SYSTEM OF SELECTION BEGAN AMONG THEM IN MARCH (1990) THROUGH WHICH THE FOUR BROTHERS EMERGED.

The following are the stated narrative or explanation to the number one leader of the prayer warrior group in question and some of his immediate response or reaction after that.

The two had seated together, so he began; “brother” he said, “here is a special instruction from above about the battle ahead, directed to you personally.

As you have already known by now that from the six continents of the world the Lord had chosen Africa for general revival of the Christianity. And from the countries in it He has chosen Nigeria; from the state in it He has chosen Bendel (now Edo) inside the state He has chosen the corner stone community Benin City.

Inside the city He has chosen the saint Augustine Parish prayer warrior group, and among them He is now pointing unique hand at you as the number one leader, owing to this that very advice given to the king David in the old testament against the physical death in the hand of the opponents is now directed to you against the spiritual one.

And that was when David narrowly escaped being killed inside the battle field while his own life had to be secured more than that of any one else among his own people.

Then when the people had appreciated the danger or risk of his own exposure to their opponents, his adviser went to him and said, “you worth ten thousand of us to the enemies. (meaning to say) if they kill ten thousand of us, while you are still alive it could appear to them as if nobody was killed yet.

But if they could succeed in killing you, you worth ten thousand of us to them.

So take not; special preparation is needed on your part and that would be with a view that if the spiritual enemies had posted their strong fighters to somewhere else before now, they could withdraw them from those areas to face you in their own effort to hinder what is coming to take place.

Again just imagine that you are an army officer who is now going to confront your opponents in the battle field. So even if you think that you are far stronger than them, you still need to prepare yourself for a serious battle and carry all your strong weapons of war to the field.

Then when you have defeated them there in the field, you return to your camp with the remaining weapons.

But if you get superficial preparedness and divide your strong weapons in your own camp, with hope your opponents are not such strong things may turn to their favour as to defeat you.

And if they do, they would also come and carry those remaining weapons in your own camp as things belonging to a defeated fellow (their subject).

Now to bring these quotation and illustration home; you need such types of fasting and prayers that even if you appear with only skull and bones this time let it be; so for you are successful about the task ahead.

Then if there would be any need for later recovery good, if not you leave it, so far the important victory is won.

THE LEADER’S RESPONSE

He (the leader) nodded head as if in well appreciation and approval (when the explanation was going on) before he said in the end of it, “ when we were driven away from the church; some people thought that I would start another church and I know that if I do people would troop in, but that is not my aim.

As soon as the explanation began another one of the four brother who were later selected from the group entered and joined them in the shop, so with the leader he listened till the end.

Then the leader went away afterwards but returned on the next day and said; brother if there is anything you want to tell the group about this coming revival prepare it.

The chance would be given to you this Monday and I know that God will give you what to say; so the brother said” O.K.”.

The Lord had prepared the brother on the next Monday as the leader had said that he knew He would do.

First head line about the outcome of that as it is in page 119 of a book about the corner stone goes like this.

The errors that would deny most of the gospelers of their expected later reward are well opened both before God and a sect of people on the unique track, but hidden away from two sects of people outside it.

And below that head line are some quotations and illustration (given that Monday) concerning carelessness in the lives of most modern gospel believers, which they think that don't matter so far most of the people who know them could see their visible and remarkable effort to serve God. Together with some physical positions or visible gifts which are confusing them against the required efforts to complete their salvation with trembling and fear. The first quotation and illustration (that Monday) went like this.

An active soldier in the battle field doesn't mix up his own thought with that of a civilian if he wants to please his own commanding officer.

But sometimes when a physical soldier (as a commanding officer) starts moving from air conditioned room to that of a car and from it to that of an office he could stay away from the battle field.

The gospel battle on the striving track should not be taken as the same with that because there is no bigmanism about it.

And those who take them as the same suffer spiritual lapse on the process to their own ignorance. The second ones (that Monday) went like this.

An athlete who runs a race cannot win the prize unless he keeps the rules for it. Assuming that we are watching some athletes on this television (pointing at the one on the table) sometimes when we hear the whistle by which the race starts, we could see some faster runners moving far ahead of others.

Then in such a case it is certain that most of the watchers would think that even if those ones in the front fall down on the way they could get up and still be the first ones to get to their destination as to win the prize for the race.

But in the end, we may be very surprise to see most of them be kept aside while prize would be given to some other people who were just behind them along the line.

And when such a thing happens the watchers could be moved to express their views or opinions over it. Some may say that the judges were partial others may say similar things to that since they saw their visible efforts on the process.

But if those judges also want to clarify all concerned, about what happened, they could revise the whole game through the slow motion.

And that would expose the causes of their failure which could be some carelessness or it doesn't matter about the rules of the game while it matters a lot.

The people would see with their own eyes how some of them marched their feet in other people's line or outside the line but continued with their effort to be in the front ahead of others (if such was the case).

And when that is done these two sects of people (those who lost their prize due to the hidden errors and the ignorant watchers) would see their former views about the case in a different way. Owing to this, it is very important that all who runs such a race with the hope of prize in the end must try as much as they could to avoid any error which could cancel their effort in the end etc. The leader concerned returned to the brother on the next day and said, brother those talks of yesterday were well appreciated they are words of wisdom.''

But what is hidden from the group was that their own process under the corner stone would be put in the slow motion in a special way for all who deserved the striving track to see.

The explanation was given as the last of its type before the Gideon system of selection in their midst (which began in March 1990) repeated, and most of the group members are still physically alive today.

A SIMILAR EXPLANATION TO THE SAME PRAYER WARRIOR GROUP THROUGH THIS BROTHER WHO LATER BECAME VOICE OF THE FOUR BROTHERS WHICH WAS THE FIRST OF ITS TYPE AFTER SHARING OF THE STATED BULLETIN DATED 27TH OF MARCH 1989 AMONG THEM.

This very explanation to the prayer warrior group is also contained in the book about the corner stone community Benin City starting from page 69 under the following head line.''

Scolding from above to the group and announcement of coming exposition of the hidden caliber for the unique track to encourage the few who must value it highly.

IT GOES LIKE THIS.

After the Saint Augustine parish elders' controversial election 1989, the prayer warrior group called for a meeting in the home of their secretary to decide on the next thing to do, which some people went some did not go. But before the meeting began the group was presented with two different parables from above through which the Lord reminded them that they were told about the persecution in the parish and scolded them against negative outward manifestation in their midst. He also informed them through one of the parables that those of them who were truly flared for the striving track were still hidden in their midst which others would notice with surprise very soon.

THE FIRST PARABLE.

Seven stones were arranged against a chameleon but it started shaking when only one of them had been stoned at it. Then a big question comes in; to whom shall the remaining six be stoned at?

HE EXPLAINED THIS A BIT.

You were informed and often reminded that these persecutions were coming with this very question, who would stand? “Who would stand? And this means who could avoid contradicting your vision or the striving system as a result of them? In other words who could speak and act in line with them in the mist of those things.

So that when the ignorant would be made to understand part of them they would also know that these people were informed beforehand: and that this person was perceptive on the process.

But most of you faultily understand who will stand to mean who would continue attending to the church activities when they are going on or after them.

THE SECOND PARABLE.

There was a serious battle between the animals and their opponents (at a time) then along the line the elephant was captured (in the battle field).

And when their opponents got to their own camp they tied it to a big tree with a strong rope and went into celebrating the captivity as if that was the victory over the whole battle.

Their hope was since they could fight and capture such animal as elephant in the battle field, it was very difficult for other animals to come and over power them there in their own camp and take it back to their own side.

In the other hand; the animals had gathered together wondering for a way to rescue elephant (their big brother) from the hand of their opponents. If the lion go there as a huge and strong animal, which he is (they thought) it could fight bravely but could it until the elephant from the tree? So who is capable to go and do these things? Then the rat who felt endowed with crucial caliber to aid in such a case volunteered itself to go.

But most of them whose criteria to appraise it and its capability was the seize or its antecedent service in their midst about battle, simply ignored it and all it could do, still it moved to the camp. And when it got there it started cutting the strong rope gradually with the teeth until that was cut off.

When it was busy the opponents neither see such a huge animal expected for such a mission, if at all any of them would come nor hear such a noise expected from it when it is in action. And the elephant itself had run as fast as it could back to their camp when it was freed, while the rat also sneaked away from there back to the same camp.

Then the animals surprisingly discovered what they never know or expected to be in their midst beforehand.

And that had to do with hidden crucial caliber that proves itself crucial only when the need be. Although part of this second parable had been explained the speaker had not rounded up before the very leader who was unjustly removed from the stated election room, interrupted by saying o.k.o.k.o.k!!!, you had repeated a word twice so what you are telling us is finished.

Then the speaker got seated and the secretary of the group in whose parlour they were said, these things had been a burden in him and he is now free.

I never feel at rest when I have such burden within me, until when I speak out like this; therefore the said leader added, “all you explained to us is good but you have taken much of our time. It was then the meeting began and after it some people volunteered themselves to go and meet with the central body of the elders in their weekly meeting in the city.

That was in the second section of their meeting after the election while the leader concerned had met with them in the first section of it. And the outcome of their complaint starts from page 73 of the same book about the corner stone where this case above stopped.

Under this head line; “ the meeting of the chosen prayer warrior group with the central body of elders (in the city) and the outcome of that.”

That parable concerning former estimation and evaluation over different abilities in the midst of animals before the rat moved to the camp of their opponents and the surprising situation in the camp when the rat returned was not fully explained in the midst of the prayer warrior group, because the speaker was interrupted half way.

Therefore the explanation would come up in full for the first time under this central body of believers in the creator of the universe as one of the main reason almost every modern believer in Him missed what it should be for the coming kingdom.

But the most important point about it was presented to them by then in the following language (those who are flared for the striving system were still hidden away from the people for the time being and very soon they would be noticed with surprise (which is the case on the ground this time).

These special explanations from above to the chosen prayer warrior group through this brother who later became voice of the four brothers were given to the group in three different occasions after sharing of the stated bulletin dated **27th of March 1989**.

This very one above which took place after the stated controversial elders election in saint Augustine parish 1989 was the first of its type (repeated).

The second one was after personal instruction to the number one leader of the group before Gideon system of selection began in March 1990, which was a year interval since the bulletin was shared (repeated).

And the third one was by the time of the Gideon system of selection in question, which was longer than these two sections before it.

A head line about it is written as the following in page 133 of the stated book about the corner stone. “The Gideon selection; the four brothers left the chosen group with personal conviction in four different days.

So to it cut short here in this bulletin few questions and some explanations along the line are considered important which could change the very shapes of some statements as they are in the book in order to cover up the cut off ones.

When the parish elders reported their case with the chosen prayer warrior group to the corner stone chairman he called the two sides together in order to hear from both sides.

And the group had agreed within them that after the meeting with the chairman they were to seek the face of the Lord in order to continue with the corner stone vision concerning things ahead.

They had decided that since the chairman was to look into the case on Saturday they were to have three days fasting and prayers the next week which were to take place on Monday Wednesday and Friday respectively.

So the first person to leave the group among the four had withdrawn himself the very day they met with the chairman.

Two persons among them had already withdrew on Monday section, but the Lord ordered one of them to go back for a different purpose before he withdrew on Wednesday and he is the voice of the four brothers in question.

When he was ordered to go back to the group he was not told the reason, so he surprisingly asked, ah! ah!! What am I going there to do again, since I did not sign the paper with them?

Although no answer was given the order was binding, or rather it presented itself inevitable so he moved to the place ignorant of the reason until he entered into the parlor and seated down quietly, under a big table by the corner.

Then the Lord said, “your purpose of coming back here is to present the group with the important points from the meeting with the chairman for the sake of those who did not go there with you, and he said o.k.ee!!.

Meanwhile He made the elders to reject the first paper which some people had signed in ignorance and also had the head line mended as to make what the people were to sign clearer.

The people were about to start signing all over again, so the brother began to establish his own purpose of been there with some questions before the important explanations and they stopped for a while and listened.

The first question; I think we all agreed to seek the face of the Lord first after the meeting with the chairman so that we would know the next positive thing to do in line with what is ahead of us, so what is going on among us now?

Then the number three leader of the group, who had already contributed to a contradicting decision on Monday said, “yes, we are seeking the face of the Lord, or do you think that these three days fasting and prayers are for any other thing?”

Second question; “who among you would remind me the name of the person through whom the corner stone started in this Benin City?” And when he was reminded, that it was through Rev Fr Abiode he directed the third question to the number one leader of the group.

Brother (he said) were you not the person who told us that this man had said that on the process to achieve the goal if anything stands on your way never turn away from it to the right or the left. But stand and be striking it at the target point that it could take time, but it must surely give way for you to continue positively on the right track? “And the leader said; yes that was what he said but that one is a different case from this one; then he also directed the fourth question to him.

Brother (he said) were you not the person who often shared a particular passage from the scripture with us about a leader of a people who forbade the pork (meat).

And when their opponents wanted him to compromise as to mislead others about it, they told him to cook the type of meat he wanted to eat at home.

So that when they would be ordered in the public to eat the pork, himself would just bring it out and start eating.

Then when the people see him eating any meat they would start eating the pork, but he refused and proved his eagerness to void misleading the younger ones about it.

And the leader repeated, “yes these are true, but they are different from this one before the brother turned to the group for the important explanation which is very long. And after that one of the people who did not attend to the meeting with the chairman said, “this is true oo!! We are not yet told anything about the meeting and we are supposed to be told; it was then the number one leader started explaining the outcome of the meeting to them in his own way and along the line they started signing their names in the second paper.

To cut it short here again;

A brother had emphasized on the Gideon system of selection on the first day it was announced to the group saying, “brethren now that the Lord is talking of Gideon system of selection among us we never know who and who He would select; whether I will be one of them or not I never know; after that day the same brother also announced to the group saying brethren the Lord had showed me (in dream) that this group is about to sign obituary paper and I saw myself signing the paper two times in wayoo ways; of which the group screamed heee!!!.

The same brother in question was the person holding the second paper that moment and the leader was still explaining the outcome of the meeting in his own way when he signed his own name. after that he angrily turned to the person he regarded as their opponent (owing to the explanation) and said brother come and sign this paper

Look if you don't sign it you are a hypocrite of which the group shouted yes; he continued in short if you don't sign this paper as from today I will be calling you Judas; of which the group repeated yes.

Before he sockly said, I don't know whether your father is a native lawyer and you have just come here to prove it to us.

From there number four leader of the group started talking in a very low confident voice to the hearing of the group saying brother come and sign this paper; let me tell you if you don't sign it, it is as if you are exposing yourself to the lion.

In fact if you don't sign it you would be a target for these people.

"Then the brother questioned in turn saying," which one of all these do you people want me to be afraid of now, you just tell me? Is it afraid of exposing myself to the lion; that of being a target to these people; that of being taken as a hypocrite or Judas in your midst or what you just tell me?

It was then a sister who was vice secretary of the group that time came out and called him twice, "brother! brother! he answered yes" and she said, you are not hearing the English Language very well; he asked what and she continued.

I say you are not hearing the English Language very well; it was the grammar spoken in the chairman house you did not hear, if not there was nothing bad in those things they said that place do you hear me?.

And he replied, sister I heard the grammar spoken in the chairman house to the extent of not signing this paper with you do you hear me?

There was almost general laughter in their midst except the brother himself and the number one leader of the group (very significant point).

It was then a different sister laughingly started amusing beating to him with both hands saying, "what type of argument is this? What! What!! etc. and he asked in turn; argument?.(a different significant point).

Then the leader who did not laugh along with others said (almost to himself) "what is all these things about? If it is wisdom don't we have wise men among us here (waving a hand towards the group)

"And somebody had told the elders that we boasted of coming back to the parish without filling of that form; (he continued) is this not the fulfillment?, this is the fulfillment; then before the meeting came to an end for the day all who were there had signed the second paper ignoring all the brother had explained against it (very significant).

The Lord had decided that the four brothers He selected from the chosen group would leave it with personal conviction in four different days, and that was without their fore knowledge (repeated).

Owing to this one of them was told to withdraw himself from their meeting as prayer warrior group before they met with the chairman.

And when two persons among them wanted to do the same on the following Monday one was told to go back before he did so on the Wednesday.

Then the last person who signed the first but rejected paper (also the only person who benefited from the rejection of the first one which some people supposedly signed out of ignorance) had gone home and prayed seriously over the case and asked the Lord what was happening and the very side he wanted him to take.

Although He reminded him that the Gideon system of selection, which they were told beforehand was going on he was not told instantly the very side he would take.

But even though for undisclosed reason he did not attend to the Wednesday meeting when those things were explained to the group he heard that the first paper was rejected by the elders. So he was moved to attend to that Friday session in order to get a clear answer about their reason for rejected of it.

And when he got there and asked the answer given to him was not convincing, from there the spirit directed him to demand for the mended head line so that he would read it on his own which he did.

But some people were eagerly asking him to write down his own name first, or rather to agree as to have his name written before anything else, while he persisted on his demand. Then when he received and was reading it he became convinced that it was against the cornerstone vision, so he explained to them that he would no longer sign it.

Even though he would not stand for the vision by himself as to point out how that signing contradicted it and also stand defending it like the brother who later became voice of the four. It was then a particular sister screamed, “you people should know what you argue about in this case. Because we no longer understand anything about it, so if anything happens against us you are the people we know; That was not only because as a sister she could not and was not expected to comprehend the whole case positively, or argue against it respectively like those brothers. But because she knew that she could not do so, and she screamed on behalf of other positive minded sisters.

The few among them who would be fortunate to adhere to spiritual side of the gospel striving protocol as it is the light; unlike most of them who could not see what is going on that side on their own, as to speak for themselves but felt that they could.

And to explain what is there convincingly in the modern church is considered very important, for my own good and for your own good, if you are one of such positive minded ones (brother or sister).

ANOTHER SHAPE OF THE SAME CASE

Illustration of a process voice of the four brothers went before now and what he is passing through this time for the central body of believers in the creator of the universe was done with a basket in the hands of the Lord which is described as a master piece to be.

Some other cases concerning his own personal office among the four began with some remarks that make different between gospel striving system and the Law of Moses or any other system of worship among men that contains the requirement for the coming kingdom of God.

Again through activities in front of a camera for the programme all the materials needed were produced and continue to be produced, from Ezekeke Ozoemene polygamous family, basically. This is before inclusion of other polygamous/monogamous families in Okeoji kindred: Ula village; Ekwulobia town; Aguata local government; Anambra State, Nigeria as a country; West Africa as a continent and the world as a whole.

The people whom God loved so much before He sent his only begotten son so that those who listen to Him would come out of darkness and change their past ways of life in order to move in the light for the coming kingdom.

This has to do with one side of the container for the programme, while the other side of it, that makes it full container for the programme consists of the following.

Involvement of the scriptures; provided bulletins for the programme; books and booklets; Newspapers and magazines; radio programmes etc.

Experiences gathered on the process through these things with continuous effort in gathering of such experiences are considered adequate to handle cases in Judaism, Christianity, Islam, and any other religious body under the sun.

Among the people who know the creator of the universe as almighty God; almighty Allah; almighty Jehovah, e.t.c, so far the case has to do with the coming kingdom in question. And this included all who believe in this coming kingdom still they are preparing to enter into it through different ways.

But the creator Himself had destined that at this very stage He would unite those of them who are sincere about it before Him by giving them mental picture of good judgment and a process leading to it (good judgment) through which they will enter into the kingdom.

He has decided to open their eyes as to see fish of which its big and small bones are separated away from it.

They will be made to notice such fish by mere looking at it.

And if they touch it with their hands it would be just to ensure safety of that for consumption before a time to put it into the mouth to avoid hook on the throat.

They will also be made to know the men whom the Lord is using to separate such bones from the fish; those whose eyes are opened in the full light provided among men for good judgment.

Because this light is shining this time the same way everybody is going to see it on the judgment day when everything would stand as they are before Him the creator of all things. Then after that if anybody give them fish mixed with bones, expecting them to put it into the mouth, they would be made to see that it remains as to cause an avoidable hook in the throat. Therefore they will simply mark the giver as one them who do so inside the darkness and on the way that seems right before men.

From there they will hand over the fish to the men whom they had already trusted for the important separation of such bones big and small with their eyes opened in the stated light. When that is done they will notice it by mere looking at it, but if they happen to touch it with the hand, it would only be for confirmation before the time to put it into the mouth.

And through this way they have overcome permanent death caused by mixture of fish and bones which kills the people inside darkness and on the way that seems right before men.

PLAINLY.

Two things were made for unique service to humanity through this very office occupied by voice of the four brothers.

These are the stated gift of processing vision concerning the coming kingdom and the stated most important duty of the holy spirit for the striving system which is to remember cases experienced in the past in the face of a new trial before talking of what to do and how to it at the moment.

The stated willing listeners involved will instantly stop imitating the world in any way against the striving system as it is in the light as soon as they see the different; and this is building on the rock which the gate of hell will no longer prevail against.

This also is the key for the coming kingdom which brother Peter had demonstrated practically on the very day he died physically.

The Lord Himself had made this known to the stated prayer warrior group through that parable about the former regard given to the rat in the midst of other animals, which is a regard given to these four brothers from that time till this moment.

And that was when what the rat could do with its own gift to surprise others had not taken place; which it later did to change their former regard.

It is possible for God to return a dead person to life in order to give explanation to the people about what is going on in the spiritual world accurately through him (if he chooses to do so).

It is also possible for Him to use the same measure of external miracles in which every physical blind person, lay person, deaf person, etc. who happens to come around this time would be healed, as it was in the beginning of the former rain (if he chooses to do so).

But instead of these He chooses to make it possible for someone to see past cases present ones and future ones, including what is going on in the spiritual world very clear.

And this is as to give such explanation needed accurately and convincingly as it is in the stated light, so long as the striving system for the coming kingdom is concerned.

This is not to say that external miracles are no longer important in our midst, no, they are always important, since the people who are seriously in need of them are always there and God Himself is always using His servants to see them through.

But external miracles will no longer take confusing position in our midst against the striving system, since the Lord Himself will now make it clear that none of these servants involved in it this time is in the same shoe with these four brothers in question.

And most of them will not accept what it takes to join them tomorrow; this is if at all any of them who are known as men of God in the modern time will do so.

Still they are important servants due to the importance of their service to God and humanity; but these are going on outside the striving system today.

And those who could take some other persons along on the striving track must see spiritual side of this case very clear to void continuous confusion from that side against the striving system.

THE WAY THE WHOLE CASE CONCERNS YOU AS AN INDIVIDUAL

A time is scheduled by God for you to see that you are still under self-righteous, self-justification and misleading self-evaluation.

Because even though you think that your personal spiritual stand is justifiable today, the assessment is not done in this very light in question; but outside it. Therefore in order to prove this to you the stated corner stone community Benin City, Edo State of Nigeria was chosen for practical process with God.

And in order to get most important points about it clearer, the stated Saint Augustine Parish prayer warrior group (part of the corner stone) was chosen before they shared the stated bulletin about it dated 27th of March 1989.

And this has to do with forbidden fruit or forbidden meat in the midst of people who applied the striving system which nobody could avoid both physical and spiritual without divine special help. Then some people among them whom God Himself will now prove to you that they put more effort to move on the striving track than you could not achieve the requirements for the goal by the time of the stated Gideon system of selection in their midst (this is if you are not one of them). And for sure you are not yet free from some of these errors that got them failure on the process. But you would not see them on your own until they are pointed out to you convincingly in God's own time.

Then if you cannot defend your spiritual stand about them in this light this time be sure that you cannot do so in the same light on the judgment day.

This is whether you were a member of the stated corner stone or not so far you are a created human being who is preparing to enter into this kingdom in question.

And in this case nobody is excluded except these four brothers known as the corner stone remnants through whom the Lord will now resume multiplication of the people who could apply striving system for the coming kingdom as it is in the stated light.

But before anything else take special note of the following. You cannot read this and see what is there simply because you are already the supreme pontiff; chief Imam or general overseer, no, since your own stand about it is just like that of high priest in the first century. Someone have been in the desert for a given time about it; He separated himself from life style of the community

for a time owing to this very case which is similar to that of the first century, that you are already familiar with.

And today you may quote the scripture that says, ''come out of them; and stand interpreting it to the people.

But he could see what it means in the midst of those who applied striving system for the coming kingdom more than anyone else among men.

For instance, in the first century the two persons who went to the desert for this purpose separated themselves completely from the community life style for a while. And when that was over they neither take some people away from the community back to the desert so that they would come out of the world completely, nor allowed them to remain with their former community life style. Instead, both those who went to the desert and those who listened to them did stand between the two sides, or between life style in the desert and that of the community, and the case has a similar shape this time.

It doesn't mean that you must appear the same skinny, bony or tiny, as he is today, but something must be done as to gain your own sight for the coming kingdom in order to know when contradiction is involved against the striving system.

Gain the wisdom with which to overcome the world; the power with which to stand test of time about it and impart the most important part of the message into human heart.

And this move convincingly from preacher to all listeners, only when spiritual rules about it is adhered to without contradictory mixture.

Above all is to gain the fear of failure about it before God; which is the fear to avoid contradiction to the striving system as it is in the stated light.

If not so, you may simply stand defending a different interest outside the light like the high priest and his fellow clergy men in the first century, which influenced them to apply negative reaction against what is most important before God, to their own detriment.

And if your own case would be the same this time you simply remain with the stated self-righteous, self-justification and misleading self-evaluation.

While God Himself who is using you that side for his own purpose will also stand using some other people on the positive side because either side is serving important purpose for Him in fulfillment of the scriptures.

Voice of the four remnants of the corner stone community; also known as catholic charismatic renewal Benin City (Bendel State in those days, but now) Edo State of Nigeria. Meanwhile activities against cornerstone system of worship considered important for the programme took place in front of the camera for the programme between January 1986 and September 1990.
