

THE ALMIGHTY GOD REVEALS TO HIS CHOSEN PEOPLE WHAT HE WANTS TO DO WHEN AND HOW HE CHOOSES TO REVEAL IT.

Gathering of people for the said vision of the corner stone community Benin City Edo state of Nigeria for Christianity in particular and mankind in general had started around 1973. Corner stone community is a name Catholic Charismatic Renewal bore in the city at a time, for a purpose. The person through whom it was introduced in the city, Rev. father Abiode was made to put the key point expected for success about the case in this plain language "if anything stands against you on the process to achieve the goal, neither deviate to the right nor to the left, instead, stand and be striking it at the target point. It could take time but it must surely give way for you to continue on the right track. (on quote).

And apart from the main four different potential books for the whole program, known as container from the spiritual bush or desert, a number of papers or bulletins are written about it under God's own instruction. The first one was in 1989 before the Gideon system of selection among the chosen group (the Saint Augustine Parish prayer warrior members). Duplicate of that was given to each member of the group only. While about twenty three (23) different ones were from 2009 to this very date above (30/09/2015). One of them has parts one, two and three. Some have part one and two, some are single papers made for posting on the wall, others are sects of bulletins, ranged from five in one, upwards. And the instruction allows for extension of them beyond the said group members from this date above (2009) and almost all have been in circulation ever since then, while duplicate or rather copy of each of them is reserved in case of necessity.

Below are their specific dates and headlines.

1. Revelation and prophecy received during our prayers on 27/03/89 (for the said prayer warrior group).
2. Good news to every positive minded gospeler. The vision of the corner stone community Benin city, concerning the Roman catholic church in particular and the modern Christianity in general is in progress and at its peak. Dated 9th October 2009.
3. This is to get that paper (given out to inform the general public that the fulfillment of the corner stone vision for the Christianity is at hand, dated 9th October 2009) clearer and to explain some of your extended remarks about it that deserved explanation (dated 18th Nov. 2009).
4. Let them be one just as we are one: Some of the cases kept secret beforehand designed to be displayed under the united Christian

faith (U.C.F) as eye opener to the few persons from all over the world who deserved to move successfully on the gospel striving track (dated 18th February 2010).

5. Cross dressing/indecent dressing: why feminine modesty and scruple are specially important, process of changes about the body wears and how come about that any clothes shaped in form of trousers or such shorts/knickers which short skirt could not cover up were worn by only male persons before the western society become secularized in the modern times (dated 9th march 2010).
6. Another sect of special prayer point from above for the corner stone vision to a greater number of persons after twenty one years of the first one to a particular group. Three special prayer points from above to Christians who know that all is not well about the way of worship in the Christianity, particularly those who never feel comfortable over it and have been asking God for a lasting solution to it (dated 27th march 2010).
7. First, see the prayer points given on 27th March 2010. Highlight of the whole program (dated 23rd April 2010).
8. Illustration of God's approval and support to the secularized world against the scriptural words for the striving track even through the spirit poured upon every flesh. A wise king and his stubborn/foolish servant (dated 21st May 2010).
9. You could be one of the instruments to be used to sustain the next gospel light. Special enlightenment to the Christians in the Benin city, since the city has been chosen by God for inevitable change in human ways of life, particularly in the Christendom which is expected to start this very year (2010), (dated 23rd July 2010).
10. Some of the challenges to be contend with on the gospel striving track, mostly on the part of the men (dated 30th July 2010).
11. Mirror of some important events in the creation; past, present and future, in connection with the Christianity. Instruction about love, obedience, help etc after comparison of the faces of God/woman to man, and physical desirable things to mankind which most of the people do pursue against the single thing Jesus had pointed out as the most important while only a few persons could pursue that and hold it firmly, which if so terminates or alleviates their effort in the pursuit of many other good things (dated 23rd August 2010).
12. Part one, also see part two of the same date 09/09/2011. There are certain things that prove that one has known the truth and that the truth has set such a one free.

13. Part two, start from part one of the same date 09/09/2011. Everything important is in place for destined unity of the Roman catholic church and the protestants who had separated in the 16th Century, both for those of them who deserved the gospel striving track and to build the church on the rock. Then for a good start below are issues pointed out from both sides for termination.
14. Public notice part one, also see part two and three of the same date, 09/09/2012; The practice of gender equality neither promote carefulness in human life nor facilitate salvation of human souls. Products of the reality about Christianity, practicalized in our time for unification of modern denominations.
15. Public notice part two, start from part one, also see part three of the same date, 09/09/2012. The cause of general failure of man before God and the only way out.
16. Public notice part three; start from part one and two of the same date, 09/09/2012. Two different offices in particular among others that facilitate turning things upside down against the gospel striving specification and position of man and woman for carefulness in human life respectively.
17. Public notice: Divulged case for elucidation 09/09/2012.
18. Good news: part one also see part two of the same date, 23rd September 2012.
19. Part two, start from part one of the same date, 23rd September 2012; Astonishing attachment of high value and importance to a practice which majority of the people would not accept as proper; this is backing up a saying that truth is not what so ever works and would help to prove that even what seems to denote majority carry the vote in the modern Christianity, neither change the striving system nor remove anything from it.
20. Part one: also see part two of the same date, 9th September 2015. Do your best to accept this destined great failure with remarkable equanimity as a gospel leader in a high or low level, to enable you make a positive use of the second chance associated with this later rain (destined to be greater than the former).
21. Part two: start from part one of the same date 9th September 2015; A report from America concerning this very program (commencement of the later rain) which has no specific date or time, on the part of the four remnants of the corner stone.
22. First favour goes first, before a second favour that causes confusion against the first one. Some other points about this vision concerning unity of different denominations in the Christianity considered important in a bulletin at this very stage since all are

called before talking of demarcation between the majority and the few who are chosen, (dated 23rd September 2015).

23. This very one in your hand; The almighty God reveals to tiis chosen people what He want to do, when and how He chooses to reveal it, this date above (30th September 2015).

Moses was separated from the chosen people of God for good forty days and forty night and that was for the very law that change their former ways of worship as a nation. The Lord Jesus Christ did the same in order to have the law produce the expected fruit in the lives of true worshiper of God both among them and the same caliber of people outside their own nation. John the Baptist who had prepared the way for Him, had spent time without number separately from the same people, in order to do it. And in the same way, it is now twenty five years (25) in this September 2015 since the said four brothers were separated from gathering with any other group of men for worship and almost for any other thing that has to do with the usual service to God or humanity. This is for renewal of desert view in question which has to do with ability to see both physical and spiritual sides of the written statements through them/about them (Moses, John the Baptist and Jesus Christ) concerning many who are called and few who are chosen among gospelers. A case which has no practical examples in the first century or from written cases about the former rain. It also enables the servant concerned (physical voice of the said four brothers) to assess and evaluate every work going on among men in the name of the Lord Jesus Christ both on the gospel striving track and outside it. And this is in such a way that anyone involved would be convinced about it on the suitable time to such a one's spiritual stand or value of such a one's service before God in which some hard working and open minded ones without vested interest against hidden treasure in the land, will come first before others follow. It is through him God will now prove that some system of worship under the sun were simply ordered for different purposes from what most of the people involved think, both in the Christianity and outside it. The first one among them (in the Christianity) is the very system with which the Roman Catholic Church is known. This is closely followed by the activities of founders of different denominations in it (Christianity) who were made to familiarize themselves with some Bible quotations they could interpret for material things or physical benefits of moving after the Lord Jesus Christ. Both sides of them and other ways of worship among men that work in common with them, to confuse the people about desert view of Christianity, hidden treasure in the land, which is permanent blessing of God for humanity or the life style of a sheep in the midst of wolves, as wise as a serpent and harmless as a dove (that goes in a line

with the same 'case) will be exposed at ago, for the sake of fortunate ones in the modern world. Why? Because the abiding fruit of the Holy spirit in question, is not expected when any of these three points is affected negatively, while the few who will now struggle to produce it cannot see the case very clear without this first one (desert view).

Before now I, (the voice of the said four brothers) found it difficult to know why I could not familiarize myself with the very (Bible) quotations some of them in the Christendom use, as to interpret them in the same way for the same purpose which is vice versa about our own side of it. I also found it difficult to read books written by some of them (with interest) just as they could not read (with interest) any of these said twenty three different types of bulletins in circulation since 2009, which has to do with the said hidden treasure in the land. This is before talking of the said four different potential books, which none of them is interested to see. But by now I could see the reason very clear as a person who could evaluate the two sides (by His grace) for God's own destined purpose.

As long as the ability or skill to read is concerned, almost everyone who preaches the Bible message to others could read them out (like some other books); particularly secular or religious educated ones. What makes difference is the interpretation. This has always based on one's own side of interest, vision and calling, which normally take a side between these two opposing sides mentioned above (hidden treasure/material things). The following short statement is a definitive answer from above about why some people who could read some other books very well found it difficult to read out some of these said bulletins in circulation for this very program, before talking of interpretation of them. "It is because the case has to do with unfamiliar technical language (or words) for opposing subject to some people's vested interest". As a result not only that it is not interesting for reading if at all, anyone in that group makes any attempt to read it, such a one cannot read it so easily like one's interesting subject written with familiar words to the person. Therefore the attempted reader would simply see the case as (or attribute it to) hand work of half-educated writer who could neither compose his points very well nor write meaningful and interesting article, (so far such a reader is secularly or religiously educated). But this is not the issue, instead it has much to do with the spiritual side of the whole case. And just as a politician cannot campaign for an opposing party to their own or advertise their own hand work for them, some spirits do not encourage any case that opposes their own interest among men. In other words, even though they (white witch/some religious spirits)

work in many ways for goodness of humanity, they neither encourage any case that deny them their own glory, nor help man to gain what they had lost in their relationship with the almighty God.

What here is saying in essence is not that the only reason why some people who could read some other books very well are unable to read contents of these bulletins and understand them in the same way are vested interest against the hidden treasure in the land, presence of some contrary spirits in them or lack of interest in the very subject concerned, no! there are some other reasons, for instance, when a written law or constitution is amended, a professional lawyer could stammer and stutter (for some time) over some of the new languages or words used, before he becomes used to them as to quote and interpret them like some former ones that remain untouched by that change. In the same way, some positive minded and willing listeners (in the Christendom) may have to go through contents of the bulletins/books in question (for some time) before they become used to them. This is just to read them out the same way they could read some cases about the former rain which has to do with the same hidden treasure in the land, before talking of the interpretation of them for abiding fruit of the Holy Spirit, like the few persons who could see the spiritual side of them.

In page 219 of my process about a court case (one of the said four different potential books) is the following head line and explanation under it.

NOTE ABOUT HIDDEN CRITERION FOR GENUINE LOVE.

In case of perplexity over what facilitate presentation of the spiritual side of the Law of Moses and the gospel of the lord Jesus Christ so plainly for the gospel striving track, through someone outside the Hebrew people (the physical Jews). The tradition of the Igbos in Nigeria was ordained similar to the Law of Moses, particularly in the area of scrupulousness about male and female affairs. And this is a simple criterion to differentiate plain love which could stand (as love) in the light of the gospel, from the ambivalent one that prepares most of the people to damnation. Practical cases gathered from that of Igbos were joined to the ones that happened under the law, (as they were written in the scripture) before the Lord exposed their spiritual side (as never before) in order to present the said track the way it is, for those who deserved it these later days (on quote).

In a nutshell, we all know that the almighty God has been addressed as the God of Israel (in particular) before relating Him to any other people that He equally created for His own purpose. Some people addressed Him as white men's God whom they preached to the black men at the same time they brought (to them) this very system of civilization and development on the ground (and these were regarded as so). But by now, the true shape of the whole case has changed or rather to relate Him to a special people to Him, while addressing Him has got an alternative, in the sense that it was through His process with some men before the written law/the message of the former rain that they (Israelite/white men) were made special people to Him before others followed. And in the same way, His process with these four brothers in question, concerning the later rain that would be greater than the former has put the Igbos/the black men in the same shoe, or rather in a similar shoe to it among men. Therefore as long as the case of specialty/generalality in this type of a case is concerned, He could be addressed as God of Igbos, God of Nigeria, God of Africa, God of black race, God of humanity or God of the whole universe. While all the ways He had been addressed by different people before now remain what they are since, it is a matter of choice.

This is to say that as a special people to Him (for this very purpose) both the effect of the civil war on them (Nigeria Civil War) and this very measure of marginalization against them since after the war, which are very significant were ordered from above. And benefit of these is made for those who are going to suffer serious marginalization in the hands of their own people when they put enough effort to apply gospel striving specifications in their midst for abiding fruit of the Holy Spirit. These are both the few fortunate ones among them (Igbos) and the same few from other places outside them, who equally deserved the same favour from above as the same calibre of people among men.

Three things in particular make difference between the law of Moses and the tradition in question. They are:

1. The practice of law was done under the Almighty God directly while the traditional one was not. The people only knew Him in such a way that they served Him through some idols that also care about the said scrupulousness (in their own way) and took the glory to themselves.
2. The basic promise for keeping the whole law was the kingdom of God, while God fearing traditionalist avoided these three things already pointed out in some precedent bulletins. (Things that could

lead to premature death, what could damage their good reputation either in their life time or when they would have died, together with anything that would face their children later, as a repercussion of what they had done).

3. The law was written in stone tablets/books, while the traditional system was not. But if the need be or rather if He (God) consider it such important, that would be written down completely like the said law. Because it was through mental picture of past events given to Moses, the book of genesis and some other books were written, under minding the interval between that time and when the events concerned took place. And the same mental picture is now given for the past, present and future events about Christianity, coupled with the promised and given spirit for it (gospel bitter truth) whose basic work it is (on the part of the few) to remind them what they had known in the past (when most needed) and to teach them new things (in line with that) the ways He chooses to do it. It was written in the said (revelation and prophecy) bulletin received on the 27/03/89, which was given to members of the said prayer warrior group and I quote, "who is that man that have faith in me like Abraham, who will not look unto anybody but unto me? I will use you to salvage my people", etc (on quote).

In page 137 of some hidden criminal acts exposed, (one of the said four different potential books) is this head line.

THE FOUR BROTHERS CONCERNED COMPARED TO ABRAHAM IN THE AREA OF FAITH AND OBEDIENCE ONTO THE LORD IN HEAVEN.

Under it is the following:

Both the faith and obedience of these four brothers from the corner stone were confirmed equal to those of Abraham by the lord in heaven, and He is the one to prove the latter to the people as he did the former, etc (on quote).

In page 139 of it, are the following: The Lord had boasted of their faith and obedience unto Him before His common opponent (the satan) and described these as equal to those of Abraham, just in the same way He boasted about the faith of Job, before the testing began. He had challenged him (satan) with the following explanation, "if you know what you think that they desire to have in this present life against the hidden treasure in the land, go and give it to them and see whether they would

accept it without my approval. And if any of them have touched it before he realized that I am not the one giving it to him, that it is not for a person who would continue on this very track, or that it is not the proper way or time for a person on it, he would remove his hands from it and also ask me to say how those hands should be washed. (continue from page 140). "If any of them is in trouble or in any undesirable condition and you go there to help him out, he would say no, that he prefers continuation in such a condition to any type of help from you. Then in the areas of what my servant should do or avoid doing in this present life, at any given time, each of them is ever ready to do or leave anything undone just as I say, no matter how important doing it or avoidance of doing it may appear to the public. And these included when it concerns what could lead them to suffer anything physically, lose any material thing or suffer disgrace" (on quote). Details of their case with Him (the Almighty God) that go with the said confirmation of their faith and obedience on to Him equal to those of Abraham began in the said page above (137). And for sure there is wide open door for verification from Him (the almighty God) through which everyone among His loving sons and daughters (under the sun) who happens to be alive this time, there by experiencing commencement of this later rain and all its concomitants, is entitled to do so in good faith to His own glory.

These boasting statements written above is a spiritual matter, which mostly concerns the spirits who know the cause of the first war in this universe, and how it concerns the said abiding fruit of the Holy Spirit among men. In other words, that side mostly concerns the spirit who could separate the few men that struggle in this present life to have the glory of God intact for Him (basically in these areas mentioned) from those who over look that side to their own favour including their supporters. Then, on the physical side of it, He (the Lord) also announced one time after another that those who know them (the four brothers) equally saw the said qualities displayed in their midst and He stands to challenge any of them to point out contrary remark to the claim (if there is any). This was directed to all who came across any of them from the very time he started preaching the gospel message to others (as a born again Christian) till September 1990, when they were separated from the people for a strange process that astonished them all.

When almost the whole world was destroyed with flood, multiplication of humanity physically had resumed with a few persons that God sustained through the Noah's Ark. Whom He returned when the land was safe and conducive for them to resume about that. And He (the Lord Jesus Christ)

had described willing listeners of the gospel bitter truth (about holiness and perfection) whom He want to gather from different places, after general failure of the church (about the said desert view) in these 20th/21st centuries, as a single kola nut that belonged to Him. The Kola (He said) had produced only four lobes at first when it was broken, but at a time it was discovered that each of the four has a line by the centre as to separate into two lobes when finger nails are used to do so. While either of the two instantly gained the same shape as soon as they are joined to the number already on the ground, which had gone in the same way repeatedly. And through that way its multiplication began and continued until they became uncountable. Still, they remained very few in number, in comparison to similar ones to them, that mixed up with them, which belonged to the world.

This demarcation that is about to take place between many who are called and the few who are chosen, will enable the few to regain both feet on the ground for abiding fruit of the Holy spirit. And the level of the gospel light through them, will reflect on the majority and compel them to join in the effort to march words with action about the Christianity. This will result to a level of change in the church that would cover up physical side of it (demarcation) while the spiritual side of it remains, which will only appear by the time of controversy and challenge, to those who could see or hear and understand. Then the same level of light already in the church (as a whole) will reflect on each of other religions around (including Islam and traditional religions) for the few men and women that belong to the lord Jesus Christ, who will hear His voice and follow Him. These few from different places (who will hear His voice and follow Him) are those who will accept the gospel striving specifications (without exception) just as they will see them in the said level of gospel light, and also forsake everything contrary to the system without exception, just as they would see them there. While those who are going to persecute them, those who are going to discourage them, those who will try to divert their attention to some other good things of this present life against the system *etc*, will come from the said majority in the Christianity, Islam, Traditional religion *etc*. But with these qualities in them, they are already joined to the said four brothers whom God had boasted about, both before the spirit who know those that share His glory to them among men and their fellow human beings who are supposed to see the difference on time through them.

And with the same quality they have started telling everybody who is out to serve Him (the Almighty God) here on Earth for the coming kingdom, to imitate them just as they imitate the Lord Jesus Christ. Then the Holy

Spirit will bear witness to those who are in positions to know, that their life style is in line with that of Brother Paul who had said it in the first century. And whenever they explain to the people that what they see and what they hear from them are the hand work of the same promised and given spirit (for the church) those who are watchful among them (with mental picture of Christianity) will not see anything different from life style of Brother Peter who had said it on the Pentecost day. This is to say that anything that has to do with life style of the people who are yet to join them in the said level of the gospel light (which is contrary to the system) will not be found among them (physically or spiritually). In keeping with this rhetoric statement of the Lord Jesus Christ (as a man) "I am the light of the world, and whosoever come after me will not walk in darkness of this world". This is from the very day water baptism takes place (both physically and spiritually) until the person leaves this world for His own preparing kingdom.

SHORT NOTE ABOUT WOMAN WHO WAS CREATED TO HELP MAN, IN LINE WITH THE WHOLE CASE.

Woman has natural power which could easily be used to divert glory of God from a man's love for woman or his inner urge to help her to the glory of some other spirits, if such a man is careless or less concerned about who takes the glory from his effort to love or help his fellow human beings (in this world). She does this both knowingly and unknowingly, and anything a man does or says to prove that he loves her could give her pleasure without minding who takes the glory therein, even when it concerned what she would join such a man to regret later. And this very case is one of them by the centre of our struggle (as human beings) to serve God the way only Him will take the glory therein for our own good.

A man who has what it takes to see spiritual side of it (like the lord Jesus Christ) does his best to sit on any woman who deserved his love/help directed from above and to blow the whistle on her for their own good before God. Apart from this, a man's love for woman and his urge to help her take the same side of failure with these ones in the modern times, directed by the said woman natural power, which is now prevalent. And this is because the church has lost both its own vision and power to the world who uses its own wisdom and power for temporary pleasure and always ready to support any spirit that stands to take the glory therein to the detriment of that of the creator of everybody and everything that exist, which has contributed much to this general failure. (READ ON FOR MORE ABOUT THE SAME CASE)

THOSE WHO AVOID EVIL WITH FEAR OF GOD ALSO VALUE WARNING REPORT TO/FROM THEIR FELLOW HUMAN BEINGS: FOR THAT PURPOSE.

Definition of warning report in this very sense, "I want to call this person to order following due process about it, so join me in my own effort. You are in a position to affect his or her own decision in a position to feel effect of certain things with him or her, in a position to fight for or with this person when the case arises, or you could blame me for moving into action about it without your consent ". In the other hand, avoidance of evil with fear of God or fear of failure before Him (God) in terms of trial and temptation, has its own concomitants on the part of those who are fortunate to understand it in full, which do not mix up with anything against it. And these have come back on the part of these said few fortunate ones from the four corners of the Earth, in place of this very wisdom at work in the modern times, which allow the majority to take pleasure in abomination and also stand boasting about them openly among men.

There is a saying among Igbo that "warning report is not a sign of weakness or cowardice". It was regarded among them as evidence of reasoning over a case very well, as to see both negative and positive sides of what could be the outcome first before words or action about it. And this was done both to avoid failure before God/gods and to avoid necessary blame from their fellow human beings in the stated position, particularly those of them who could apply the same system for the same purpose. While following due process about it went according to one's own level of thinking power and reasoning ability. This very idea enabled them to disregard any type of pleasure or gainful side of a case that would result to failure against the system right there in the face of trial, which is an important duty of the very spirit they obeyed. And with this very quality you don't need to tell them who is a reliable person in the midst of some sophists (or unreliable ones) since their words and actions in terms of controversy and challenge or trial and temptation are always there to speak for them or against them. Then whenever something happened in their presence through which each of the people Involved would prove the very side they belonged, to those of them who never know before hands, all they needed to do was watchfulness as to see very clear. And when such a case was presented to them by extension or through hear-say, all they did was listen attentively from the beginning of it to the end and ask questions for clarification in the areas of obscurity. This very quality largely affected their own system of training and guidance, in the sense that whenever a warning report was

given to any of such men about his wife, mother, any of his children, or anyone else that related to him as to feel the stated effect with such a one, it was highly valued. It means he should discipline or control such a one for carefulness or join hands with the reporter to do so, to avoid the same failure in question, both before God/gods in which they all believed and their fellow human beings who value the system as they did. Then if any temptation comes between them and those who neither have such fear nor value their system, they in turn proved to them and all who should know, that they neither pursue nor defend the same interest with them in any case no matter what is involved. And whenever they came across a man who neither reasoned over a case to their own level as to follow due process in pursuit of the same interest with them (in such a case) nor regarded them as those who knew better, as to be covered up by them on the process; they simply joined him to the side of stubborn women in the society.

Again when some positive minded women and children found it difficult to accept instruction or a decision of a man among them, just because the point had gone beyond their own level of understanding and they never trusted him yet, a man they had already trusted simply convinced them to accept it by his own approval. While this very conviction largely based on the fact that there had not been anything he approved for them in the past which they later discovered that he was not right about it according to their system and they never knew him as a man who could do anything with impunity against their system. If a woman from the side of such a man contributed her own opinion when a case was going on or interjected against his own point, he could turn to her and ask, "if you want me to remove my hand from this case, so that you will settle it with them, I will do it for you" (just to silence her for continuation with careful chosen words).

Then when they came across a woman who never knew that she was a woman in her case with men, concerning this carefulness in question, they could scream against her using the following language, "woman! go and call your husband for us, or your father, brother, son etc, who could see what we have seen in this very case". While they equally felt disappointed by such a man if he was such a person who could neither see what they saw in such a case nor follow due process about it with them. Furthermore, when any of them was invited for any dispute where his opinion was needed, he first of all looked around to see his own calibre of men or at least a man on each side who valued the said system as to follow due process about it. That was if he had forgotten to ask the very person who invited him to point out those (such a one)

equally invited for the case, whereby he would have pointed out some other persons (if they were not yet in the number) or else what will he go there to talk with only those who could simply mix up issues to confuse some ignorant against this very system in question.

It was one of them (careful minded men) that made the following statement when this system of secular school education initially came to the said Igbo land with all its concomitants. "This people (educated) are running after certain things they considered very important in this life, which I have neither understood nor seen their importance as they do. But they are already ignoring the avoidance of evil with fear of God, of which I am very sure that there is no unregrettable reason to do so. The men among them have their eyes fixed up-ward and they are finding it difficult to look down, while the women endeavour to control themselves both in the family and in the society. And being afraid of evil, I don't think it is possible for me to live in a family with any of such women and still remain free from traps my opponents are setting against me here and there (on quote).

Details of this starts from page 62 of one of the said four different books (crucial sequel to the scripture) under this head line: **A RECALL IS IMPORTANT TO SOME PAST STATEMENTS MADE WITH POSITIVE AND BALANCED VIEW.**

Voice of that man and some other voices like that had sounded very clear but subsided when this very modern system known as majority carry the vote was applied about the whole case and it became dominant and prevalent. While their voices were very significant and the same case has come up again this time, when this secular school educational system that astonished them in those days, and has been prevalent both now and then, has already served its (important) purpose for the almighty God, as to be check by Him among men. And this is in such a way that will create division of opinion about this high regard given to it with a partial view over it, that encouraged some people in high positions to impose it on everybody in the society as if it is inevitable in human life. Both those who could afford what it takes to receive it (such training) and those who find it difficult to do so, which has been serving a different interest against this carefulness in question. It is on the process of His looking in to it people will now see how it concerned total attention and effort it required from children at their formative years which are the same attention and effort needed from them for this carefulness that goes with godliness. That is, if the case of training a child in the way it would go, will be applied with convincing

expectation that it would not depart from it anytime. The same people will also notice that any man in a position to train a child will either give both his own attention and effort to the way of the money against that of godliness, in order to achieve the amount needed for the system, or do so for the Godliness against the way of the money in order to meet up with his own level of perfection which those behind him would share from. Again, when this very system that goes with warning report in question generalized among men for peaceful settlement of cases, those who valued it will find it difficult to device pursuit of litigation or running after police system of settlement, which does not return or restore friendliness and affection between two partners when misunderstanding they have is listed settled. Already almost everybody have noticed that sophism or this wisdom behind modern civilization does not consider it important to avoid mixing up lies with truth when there is a dispute to handle (in their effort to win the case before men) and lie no matter how small could destroy trust, confidence or affection in a person against another. While the gospel bitter truth in question stands to prove that even though appliance of it to human life is very difficult, it goes with both most balanced view over any case involved and disarming frankness that returns genuine love, trust and affection between two partners who have lost them beforehand.

This has already been practicalized this time on the part of the few in question, in some difficult cases between Christians and their fellow Christians, Christians and some traditional minded persons, Christians and some Muslims etc. It has also been used for some Muslim brothers and sisters/husband and wife etc., through which it stands unique to serve for the same positive minded persons described above (those who will not start trouble or misunderstanding between them and any of their fellow human beings and also stand to avoid mutuality about it with any one). This must work here in this present life (under difficulty) before the few who are faithful about it will be given another chance to display it (in the kingdom of God/Paradise) where no one who could start it (trouble or misunderstanding) or make any effort to have it requited would join them. The system is in sharp contrast to such Law of Moses that required an eye for an eye or any other one of its kind that goes with physical violence, which has a different purpose to serve for the almighty God/Allah, who ordered them among men, in different ways and different times.

Voice of the said remnants.
