

**UPDATE ABOUT THESE TWO DIFFERENT RELIGIONS AMONG OTHERS THAT
CONDENMED CORRUPTION UNDER THE SUN AND PREACHED ABOUT
COMING KINGDOM OF THE ALMIGHTY GOD/ALLAH TO OTHERS: THIS TYPE
OF A CHANGE IS NOT NEW IN THE RELIGIOUS CYCLE AND SOME PEOPLE'S
VIEW AND REGARD TO IT IS JUST THE SAME AS BEFORE.**

The high priest, teachers of the law, etc who directed others about system of worship in the first century, had studied the word of God as it was written in the scroll. And when someone else who did not follow due process about teachings of the law came up to direct the way it must be for expected fruit of the whole law, using born again as title of His message, it appeared to most of the people like another teaching that contradicted the law, but God went on making what had happened known to all who should know. It took some time before it became clear that both the person who started it and a sect of men who were the first to join Him could answer questions about teachings of the law in addition to questions about the born again issue. While those who had studied only these words of God written in the scroll could not answer those questions as to prove balanced understanding about them. That had to do with the law of Moses and matter of born again which later produced part one of write up about new testament or write up about former rain when the later rain destined to be greater than the former (part two of the new testament) was yet to come up. In other words, those who were made to carry on with the message about born again in the first century did prove understanding of teachings of the law, but those who studied the scroll for service in their various offices were not given understanding of the message about born again, still the two sides were later accepted as the same word of God before they were complied to become a single book (the Bible or the scriptures).

Then in the modern time, the pope and other servants of God under him, together with founder of each different denomination in the Christianity and other servants of God under them who direct the people about the same system of worship had studied the word of God as it is written in the Bible. And now (in these 20th/21st centuries) four remnants of Corner Stone Community (also known as Catholic Charismatic Renewal) Benin City, Edo State of Nigeria who did not follow due

process of the modern time have come up to direct the way it must be for expected fruit of the whole scriptures/Bible, using abiding fruit of the Holy Spirit as title of their message. And the same regard as another teaching that contradicts the accepted one on the ground could be repeated or come up again. Because the spirit of God is already poured upon every flesh for different purposes, and based on the passage of the scripture that says all you need is to believe which went with the message about born again in the first century, each recipient of the spirit could feel the presence of God in his or her own office as to hope that all is well, both on the part of many who are called and on that of the few who are chosen.

But the following would make difference this time;

No. 1: Voice of these four brothers has been given all the materials needed to prove balanced understanding of the Bible and this message concerning abiding fruit of the Holy Spirit as to answer questions about them the way no one else would do under the sun.

No. 2: religious leaders who use ostracism or introduced it against those who found some of their doctrines unacceptable in their effort to produce abiding fruit of the Holy Spirit will now see that the only positive instrument for such a case in this convincing power behind gospel bitter truth which does not serve in defence of any contrary doctrine to it.

The case is the same on the part of some religious leaders who could encourage their followers to use violence as a means to gain freedom of worship or to force some people to accept their own doctrine/ideology as if it is a way to please our creator (the Almighty God/Allah). Again, production of abiding fruit of the Holy Spirit by this first sect of people who looked for Him (the Almighty God/Allah) the way He could be found, or identify the Lord Jesus Christ by His personal voice for salvation of human souls from bondage of satan and sin, would project each of their former system of worship as mixture of both truth and self defeating. They would now see each of them as make shift for the present system of worship and also see those who remain in them as those who could join them at any time or continue with their service to God and humanity for a different purpose the way it had been before now.

In other words, those who studied the scroll before or in the first century did not expect such instruction from above through which what they did not study in their own time was later included to what they knew when they were directing others about general promises of God as leaders; since some passages of the scroll were written as cases that would remain the same for all time. And the case is the same about those who had studied the Bible before, or in these 20th/21st centuries, since some passages in it have to do with already settled cases as to remain the same for all time. Still it is now instructive that with knowledge of the Bible or any type of gift by the spirit poured upon every flesh service to God and humanity continue for any other interest in the gospel field just as such cases were on the part of their counterpart (in the first century) when message about coming kingdom was given a different shape against their former teaching. Because henceforth as long as it is concerned (message about the coming kingdom) anybody involved must first of all understand cases about the said unity of people from different system of worship, who must start making diligent effort to gain freedom from bondage of satan and sin as to produce abiding fruit of the Holy Spirit. Meaning to say that henceforth any one under the sun who continues with lesser quality of message about it than this approved one from above is on his or her own about it.

ALSO SEE IT IN THIS VERY LIGHT

Born again in the first century.

Key message about the coming kingdom/studied write ups about the coming kingdom beforehand.

Compare with abiding fruit of the Holy Spirit in this 21st century.

Key message about the same coming kingdom/studied write ups about it before now.

This in one hand is a case of great teachers/leaders in Israel (in the first century) but little babies about born again issue. In the other hand, great teachers/leaders in the Christendom/religious cycle (in this 21st century) but little babies about abiding fruit of the Holy Spirit issue. (provable to whosoever it may concern among men).

Thus said the Lord: (see wonderful bulletin of our time; latest among other ones for the programme dated 30th of September, 2017).

Voice of the four remnants of Corner Stone Community (also known as Catholic Charismatic Renewal) Benin City.
